

RMR CUT SLIDE FOR GLOCK® 17 GEN 3 - BROWNELLS BRN SLIDE FOR G17 GEN3 NITRIDE

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

Optic-Ready, Ergonomically Enhanced Slide With a Bundle of Custom Features

Our RMR Slide for Glock® 17 Gen3 pistols features distinctive, wraparound front cocking serrations that aid in manipulating the slide to check the chamber or clear a jam. (OK, we'll admit it: the serrations just look cool, too.) It also comes with a pre-cut slot for easy, secure mounting of a Trijicon RMR or Holosun red dot sight. All RMR Slides also have standard Glock® factory front and rear sight dovetails for "iron" backup sights. To get proper co-witnessing with the RMR, you will need to also install suppressor-height iron sights. You can also get your Brownells RMR Slide for Glock® 17 Gen3 with a "window" cutout on top that enhances airflow to keep the barrel cool - ideal for hard-working action competition pistols. Plus, if you have an upgraded barrel with a contrasting finish or a unique exterior pattern (fluting, spirals, "flames," etc.) the window lets you show it off a bit! Each RMR Slide for Glock® starts life as a billet of 17-4 stainless steel that is machined to Glock® factory specifications inside, so it'll fit factory frames and accept factory or aftermarket barrels and Gen3 internal parts. Slides are heat-treated to Rc 41-44 on the Rockwell C scale for added surface hardness and wear resistance. You can get your RMR slide in one of 3 finishes: a wear-resistant basic Black Nitride, or a thin, extremely tough, physical vapor deposition (PVD) coating in Bronze or Flat Dark Earth (FDE). Fits Gen3 Glock® 17 pistols & clones Machined from corrosion-resistant 17-4 stainless steel billet Trijicon RMR mounting slot Also accepts Holosun HE508T, HS507C & HS407C red dot sights Plus factory front/rear sight cuts Available with distinctive top Window cutout or traditional Solid top A Brownells RMR Slide is the ideal upgrade for your factory Glock® 17 Gen3 pistol OR the perfect "top half" for a brand-new custom gun built on a Polymer80 80% frame. Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017. Includes patented optic cut technology pioneered by ZEV Technologies. Patent No. RE47335

RMR CUT SLIDE FOR GLOCK® 17 GEN 3 SAFETY INSTRUCTION GUIDE

Introduction

Thank you for purchasing the RMR Cut Slide for Glock® 17 Gen 3. This product is designed to enhance your shooting experience while ensuring safety during use. Please read this guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the slide is compatible with your Glock® 17 Gen 3 model.
- Always handle firearms with care and treat every gun as if it is loaded.
- Store the slide and all firearm components in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your firearm and slide for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm use and modifications.
- If you experience any issues with the slide, discontinue use immediately and seek professional assistance.

Specific Safety Precautions for Use

• Installation Precautions:

- Ensure the firearm is unloaded before beginning the installation process.
- Use appropriate tools and follow the installation instructions carefully to avoid damage to the slide or firearm.

• Operational Safety:

- Always check the chamber after installation to confirm it is clear.
- Use suppressorheight iron sights for proper cowitnessing with the RMR.

• Environmental Considerations:

- Avoid exposure to extreme temperatures, moisture, or chemicals, which may affect the slide's integrity.
- Do not use the slide in environments where it may be subjected to excessive dirt or debris without proper cleaning.

• Age Restrictions:

- This product is intended for use by individuals aged 18 and older. Ensure that younger users are supervised by a responsible adult.

Instructions for Installation and Usage

1. Installation:

- Remove the factory slide from your Glock® 17 Gen 3.
- Ensure that the firearm is unloaded and the chamber is clear.
- Align the RMR slide with the factory frame and gently press it into place.
- Secure the slide using the appropriate screws for the Trijicon RMR or Holosun red dot sight.

- Install suppressorheight iron sights if you plan to use the RMR for cowitnessing.
- Check that all components are securely fastened before proceeding.

2. Usage:

- Always ensure that the firearm is pointed in a safe direction when handling.
- Regularly practice safe shooting habits and review firearm safety rules.
- Clean and maintain the slide according to the manufacturer's recommendations to ensure optimal performance.

Disposal Instructions

- Dispose of any packaging materials and old components responsibly.
- Follow local regulations for the disposal of firearm parts and accessories.
- If the slide becomes damaged beyond repair, contact a qualified professional for safe disposal options.

Contact Information for Further Support

For any inquiries or support regarding the RMR Cut Slide for Glock® 17 Gen 3, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure a safer experience with your RMR Cut Slide for Glock® 17 Gen 3. Thank you for prioritizing safety and enjoying your shooting experience.
