

RMR CUT SLIDE FOR GLOCK® 17 GEN 3 - BROWNELLS RMR SLIDE +WINDOW FOR GEN3 GLOCK® 17 STAINLESS NITRIDE

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

Optic-Ready, Ergonomically Enhanced Slide With a Bundle of Custom Features

Our RMR Slide for Glock® 17 Gen3 pistols features distinctive, wraparound front cocking serrations that aid in manipulating the slide to check the chamber or clear a jam. (OK, we'll admit it: the serrations just look cool, too.) It also comes with a pre-cut slot for easy, secure mounting of a Trijicon RMR or Holosun red dot sight. All RMR Slides also have standard Glock® factory front and rear sight dovetails for "iron" backup sights. To get proper co-witnessing with the RMR, you will need to also install suppressor-height iron sights. You can also get your Brownells RMR Slide for Glock® 17 Gen3 with a "window" cutout on top that enhances airflow to keep the barrel cool - ideal for hard-working action competition pistols. Plus, if you have an upgraded barrel with a contrasting finish or a unique exterior pattern (fluting, spirals, "flames," etc.) the window lets you show it off a bit! Each RMR Slide for Glock® starts life as a billet of 17-4 stainless steel that is machined to Glock® factory specifications inside, so it'll fit factory frames and accept factory or aftermarket barrels and Gen3 internal parts. Slides are heat-treated to Rc 41-44 on the Rockwell C scale for added surface hardness and wear resistance. You can get your RMR slide in one of 3 finishes: a wear-resistant basic Black Nitride, or a thin, extremely tough, physical vapor deposition (PVD) coating in Bronze or Flat Dark Earth (FDE). Fits Gen3 Glock® 17 pistols & clones Machined from corrosion-resistant 17-4 stainless steel billet Trijicon RMR mounting slot Also accepts Holosun HE508T, HS507C & HS407C red dot sights Plus factory front/rear sight cuts Available with distinctive top Window cutout or traditional Solid top A Brownells RMR Slide is the ideal upgrade for your factory Glock® 17 Gen3 pistol OR the perfect "top half" for a brand-new custom gun built on a Polymer80 80% frame. Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017. Includes patented optic cut technology pioneered by ZEV Technologies. Patent No. RE47335

Safety Instructions for RMR CUT SLIDE FOR GLOCK® 17 GEN 3

Introduction

Thank you for choosing the RMR Slide for Glock® 17 Gen3. This product is designed to enhance your firearm's performance and usability. However, it is essential to follow safety guidelines to ensure safe operation and handling. This document provides comprehensive safety instructions in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the RMR Slide is suitable for your specific Glock® 17 Gen3 model before installation.
- Always handle firearms with care and treat every gun as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the firearm and accessories in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your firearm and accessories for signs of wear or damage.
- If you notice any issues, do not use the product until it has been inspected by a qualified gunsmith.
- Always use appropriate safety gear, such as eye and ear protection, when operating firearms.
- Be aware of your surroundings and ensure that the area is safe before firing.

Specific Safety Precautions for Use

- Only use the RMR Slide with compatible Glock® 17 Gen3 models and certified parts.
- Ensure that the slide is properly mounted before using the firearm.
- Follow the manufacturer's instructions for installing any sights or accessories.
- Use suppressorheight iron sights for proper cowitnessing with the RMR.
- Be cautious when using the slide for competitive shooting; ensure it is securely attached.
- Avoid modifying the slide beyond the manufacturer's specifications, as this may compromise safety.
- Do not attempt to disassemble or modify the RMR Slide without professional guidance.

Instructions for Installation and Usage

1. Installation of the RMR Slide:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory slide from the Glock® 17 Gen3 by following the manufacturer's instructions.
- Align the RMR Slide with the factory frame, ensuring that all parts fit correctly.
- Securely attach the slide using the appropriate screws and tools, ensuring a tight fit.
- If using a Trijicon RMR or Holosun red dot sight, install it in the precut slot according to the manufacturer's instructions.
- Confirm that all sights are properly aligned before using the firearm.

2. Usage Guidelines:

- Always perform a function check after installation to ensure that the slide operates correctly.
- Regularly clean and maintain the slide according to the manufacturer's recommendations.
- If any issues arise during operation, cease use immediately and consult a qualified gunsmith.

Disposal Instructions

- Dispose of the RMR Slide and any related components in accordance with local regulations.
- Do not dispose of firearms or firearm components in regular household waste.

- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the RMR Slide for Glock® 17 Gen3, please refer to the manufacturer's website or customer service for assistance. Ensure you have the product details ready when seeking support.

By following these safety instructions, you can ensure safe and effective use of your RMR Slide for Glock® 17 Gen3. Always prioritize safety and stay informed about best practices for firearm handling and maintenance.
