

# **FILLISTER HEAD SCREW KIT - BROWNELLS 6-48X3/4" FILLISTER HEAD SCREW 12 PACK**

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

## **All Standard Thread Sizes From "0" To "12"**

With this kit you can stop searching for those hard-to-find screws that are stocked by only a few specialized manufacturing supply houses . . . we have done the looking for you. You can have that "just right" screw right at your fingertips, in a handy, very complete kit . . . and at quite a substantial savings. The kit contains 12 each of the 20 popular size screws from No. 0 wire gauge to No. 12 wire gauge in long enough lengths to fit many difficult jobs, yet they can be cut off and fitted where a shorter length is required. Slotted head drive type. We strongly suggest that after the screws are cut and trimmed, they be dipped in OXPHO-BLUE to give them a blue color as well as prevent rusting which could otherwise ruin a fine job.

# FILLISTER HEAD SCREW KIT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Fillister Head Screw Kit from Brownells. This kit contains a variety of screws designed for various applications. To ensure your safety and the proper use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that all screws are used in accordance with their intended purpose.
- Regularly inspect screws for any signs of damage or wear before use.
- Keep screws out of reach of children to prevent accidental ingestion or injury.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling screws.

## Specific Safety Precautions for Use

- Always verify that the screw size and type are suitable for your project.
- Avoid using screws that show signs of rust or corrosion, as they may weaken the integrity of your project.
- When cutting screws to size, ensure that you are using the appropriate tools and techniques to avoid injury.
- After cutting, dip screws in OXPHOBLUE to prevent rusting and ensure a clean finish.
- Be cautious when working with power tools; follow the manufacturer's instructions for safe operation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials before starting your project.
- Ensure your work area is clean and welllit.

### 2. Selecting the Right Screw:

- Choose the appropriate screw size from the kit based on your project's requirements.
- Refer to the size chart if necessary.

### 3. Cutting the Screws:

- If a shorter screw length is required, use a suitable cutting tool.
- Measure and mark the desired length before cutting.
- Wear safety glasses to protect your eyes from metal shavings.

### 4. Dipping in OXPHOBLUE:

- After cutting, dip the screws in OXPHOBLUE to give them a blue color and prevent rusting.
- Follow the instructions on the OXPHOBLUE container for safe handling.

### 5. Installation:

- Use the appropriate driver for the slotted head drive type of the screws.
- Ensure that the screw is aligned properly before driving it into the material to avoid stripping.

## 6. PostInstallation:

- After installation, check that all screws are securely fastened and there are no loose ends.

## Disposal Instructions

- Dispose of any unused or damaged screws responsibly.
- Follow local regulations for the disposal of metal products.
- Do not throw screws in regular household waste; consider recycling options if available.

## Contact Information for Further Support

For questions or safety inquiries regarding the Fillister Head Screw Kit, please refer to the EUbased contact provided with your product packaging or visit the manufacturer's website for additional resources.

## Conclusion

By following these safety instructions, you can ensure the safe and effective use of the Fillister Head Screw Kit. Always prioritize safety and consult the appropriate resources if you have any questions or concerns. Thank you for your attention to these guidelines, and enjoy your project!
