Safety Instruction Guide for STEEL 3DIE RIFLE SET LEE PRECISION STEEL 3855 WCF 3DIE RIFLE SET

Introduction

Thank you for choosing the Lee Steel 3Die Rifle Set. This product is designed for reloading ammunition and includes essential components such as a Full Length Sizing Die, Bullet Seating Die, Powder Through Expanding Die, Universal Shell Holder, Powder Dipper, and Instructions/Load Data. Please read this safety instruction guide thoroughly to ensure safe and effective use of the product.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when reloading ammunition.
- Keep all components of the reloading process out of reach of children and pets to prevent accidental injury.
- Ensure that your work area is wellventilated and free from any flammable materials.
- Store all components, including powders and primers, in a cool, dry place and away from direct sunlight.
- Regularly check for recalls on the EU's Safety Gate platform to stay informed about product safety.

Specific Safety Precautions for Use

- Use only the recommended lubricants for sizing cases, as the dies are made of steel and require lubrication to prevent damage.
- Do not exceed the recommended load data provided in the instructions to avoid dangerous pressures that can lead to firearm failure.
- Inspect all cases for damage before reloading; do not use damaged or deformed cases.
- Ensure that all tools and dies are clean and free from debris before use.
- Always follow the manufacturer's instructions for the proper use and maintenance of the dies.

Instructions for Installation and Usage

1. Setup of the Reloading Station

- Choose a stable and secure workbench.
- Ensure that the area is welllit and organized.
- Gather all necessary tools and materials.

2. Installation of the Dies

- Install the Full Length Sizing Die into the press first.
- Adjust the die according to the manufacturer's instructions to ensure proper operation.
- Next, install the Bullet Seating Die, ensuring it is set at the correct depth for your bullet.
- Finally, install the Powder Through Expanding Die.

3. Using the Reloading Dies

- Lubricate the cases before resizing to prevent sticking in the die.
- Insert the lubed case into the press and operate the handle to size the case.
- After sizing, use the Powder Dipper to measure the powder charge and pour it into the case.
- Finally, seat the bullet using the Bullet Seating Die, ensuring it is properly aligned.

4. PostReloading Procedures

- Inspect each completed round for proper seating and crimp.
- Store completed ammunition in a safe and secure manner.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Do not throw away hazardous materials in regular trash; consult local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the safety and use of the Lee Steel 3Die Rifle Set, please refer to the manufacturer's contact information provided in the product packaging or visit the official website.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority. Enjoy your reloading experience responsibly!
