# Safety Instruction Guide for RGB Rifle Die Sets

## Lee Precision 6.5x55mm Swedish Mauser

### Introduction

Thank you for choosing the RGB Rifle Die Set by Lee Precision. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your die set. Please read this manual thoroughly before use to understand the associated risks and precautions.

### General Safety Guidelines

- Ensure that the die set is used only for its intended purpose: reloading 6.5 x 55 mm Swedish Mauser cartridges.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using reloading equipment.
- Keep the die set and all reloading components out of reach of children and vulnerable individuals.
- Regularly inspect the die set for any signs of wear or damage. Do not use damaged dies.
- Store the die set in a dry, secure location to prevent rust and deterioration.
- Follow all local laws and regulations regarding the reloading of ammunition.

### Specific Safety Precautions for Use

- Always work in a wellventilated area to avoid inhaling any dust or fumes generated during the reloading process.
- Never exceed the recommended load specifications for the cartridges you are reloading.
- Use only highquality components that are compatible with your die set to prevent malfunctions.
- Be cautious when handling primers and powders, as they can be hazardous.
- Keep all reloading materials organized and clearly labeled to avoid confusion.
- If you experience any problems while reloading, stop immediately and assess the situation before proceeding.

### Instructions for Installation and Usage

#### Installation

1. **Prepare Your Workspace:** Ensure your work area is clean, organized, and free of distractions.
2. **Gather Necessary Tools:** In addition to the die set, you will need a reloading press, scale for measuring powder, and other reloading tools.
3. **Install the Full Length Sizer Die:**
  - Securely attach the Full Length Sizer Die to your reloading press according to the manufacturer's instructions.
  - Adjust the die to the correct height to ensure proper sizing of the cartridge cases.
4. **Install the Bullet Seating Die:**
  - Attach the Easy Adjust Dead Length Bullet Seating Die to your press.
  - Adjust the die to achieve the desired bullet seating depth, ensuring it does not crimp the bullet.

#### Usage

- **Reloading Process:**
  1. **Resize the Cases:** Insert the cartridge cases into the sizer die and operate the press to resize them.
  2. **Measure Powder:** Use a scale to measure the appropriate amount of powder for your load.

3. **Seat the Bullets:** Place a bullet on top of the resized case and use the bullet seating die to seat the bullet to the desired depth.
4. **Inspect the Finished Rounds:** Check each round for proper seating and overall quality before use.

- **PostReloading:**

- Store completed ammunition in a safe and secure location.
- Clean your die set after use to maintain its condition and performance.

## **Disposal Instructions**

- Dispose of any unused or expired reloading materials according to local regulations.
- Do not throw away live ammunition or hazardous materials in regular trash. Contact local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or further assistance regarding the RGB Rifle Die Set, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

By following these safety instructions, you can help ensure a safe and enjoyable reloading experience with your RGB Rifle Die Set. Always prioritize safety and stay informed about best practices in ammunition reloading.
