

G.U.M. UNIVERSAL OPTIC MOUNT FOR GLOCK® - G.U.M. UNIVERSAL OPTIC MOUNT FOR GLOCK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Handgun Bases](#)

Strike Industries is proud to introduce a revolutionary new product The Universal (Optics) Mount for Glock. It has the lowest height-over-bore mount in the industry without the hassle of cutting your slide or cost of buying an aftermarket slide! We have put many hours and 1000's of rounds down range with most of the more popular red dot optics on the market with no problems whatsoever! This includes the Burris* Fast* Fire* II & III, Leupold* Delta Point* reflex sights, Docters* II & III, EoTech* MRDS*, Trijicon* RMR,* Vortex Venom and Viper, and many others. The mount itself is secured to the slide via the dove tail with 6 set screws. Two in the dovetail cut and one forward and aft of the dovetail and two more to prevent any shift. This provides a steady, sturdy and rugged mount that will repeatedly hold zero. Other mounting hardware included is 6mm, 8mm and 10mm screws (two of each) that are used to fit and secure most of the popular optics out there. (Depending on what optic you have you will need to find the screws that correlates with your particular optic. There are two special screws for Trijicon RMR. Once you secured the GUM to your slide and found the correct post (two sets of reinforcing post included) for your optic, go ahead and mount your optic on the post and use the final two longer securing screws to secure your optic to the GUM. Disclaimer- You may mark your slide when using this mount to properly secure the mount. It is highly suggested that you have a gunsmith install the GUM and utilize the correct tools for installation. Leupold Delta Point* can be mounted but not with reinforced posts to secure 100%

Attributes

- Name: [G.U.M. UNIVERSAL OPTIC MOUNT FOR GLOCK](#)
- Manufacturer: [STRIKE INDUSTRIES](#)
- Product no.: 100037261
- Mfr. No.: SI-GLOCK-GUM

G.U.M. Universal Optic Mount for Glock® Safety Instruction Guide

Introduction

Thank you for choosing the G.U.M. Universal Optic Mount for Glock. This guide provides essential safety instructions and installation tips to ensure the safe and effective use of your product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the mount is compatible with your specific Glock model before installation.
- Always handle firearms and accessories with care and in accordance with safety practices.
- Keep the mount and all associated tools out of reach of children and unauthorized users.
- Regularly inspect the mount for wear or damage before each use.
- Report any unsafe products or accidents related to this mount to the appropriate authorities.

Specific Safety Precautions for Use

- Use only the screws provided with the mount to ensure a secure fit.
- Do not attempt to modify the mount or its components.
- Be aware that marking your slide may occur during installation; take precautions if this is a concern.
- Installation should be performed by a qualified gunsmith if you are unsure of the process.
- Ensure that all screws are tightened to the manufacturer's specifications to avoid any accidents during use.
- If using a Trijicon RMR optic, ensure that you use the special screws provided for proper installation.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including the screws provided with the mount.
- Ensure that your Glock is unloaded and pointed in a safe direction.

2. Securing the Mount

- Position the G.U.M. mount onto the slide of your Glock, aligning it with the dovetail.
- Insert the six set screws into the designated holes: two in the dovetail cut, one forward, one aft, and two additional screws to prevent shifting.
- Tighten the screws securely to ensure that the mount is stable.

3. Mounting Your Optic

- Identify the correct post for your optic from the two sets of reinforcing posts included with the mount.
- Attach your optic to the selected post.
- Use the final two longer securing screws to fasten your optic to the G.U.M. mount.

4. Final Checks

- Inspect the installation to ensure everything is secure and properly aligned.
- Perform a function check to confirm that the optic is mounted correctly and that the firearm operates safely.

Disposal Instructions

- Dispose of any packaging materials responsibly, ensuring they are recycled where possible.
- If the mount or any components are damaged beyond repair, dispose of them in accordance with local regulations for electronic waste.

Contact Information for Further Support

For support and inquiries regarding safety or installation, please refer to the manufacturer's website or contact their customer service.

Thank you for following these safety guidelines. Enjoy your G.U.M. Universal Optic Mount for Glock responsibly!
