## A Dedicated Trigger for Your Fighting Rifle

Anyone who's been around AR-15s for any length of time knows the number of aftermarket trigger units out there for the platform. However, many of these triggers are dedicated to competition or precision use, getting away from the AR's lineage as a fighting rifle. The Sons of Liberty Gunworks Liberty Fighting Trigger is purpose-built as a combat-ready trigger unit. Each SOLGW Liberty Fighting Trigger is a single-stage design, which is PTFE-coated and designed to provide a reliable, consistent pull in any kind of combat condition or in any environment. The trigger measures in with a pull weight of 6 pounds and includes a short reset not present in any mil-spec AR-15 trigger, so you can be quicker and more precise with your follow-up shots.
