

KP-9 COMPLETE LOWER RECEIVER POLYMER - KP9 COMPLETE LOWER W/REKLUSE TRIGGER&AMBIDEXTROUS SELECTOR

[Rifle Parts](#) > [Receiver Parts](#) > [Receivers](#) > [Lower Receivers](#)

The KP-9 is a monolithic polymer 9mm Glock Mag Compatible AR15 style receiver made from injection molded 30% glass filled nylon incorporating the buttstock, buffer tube, pistol grip, and trigger into the receiver design as integral components. This manufacturing process offers several advantages, such as lighter weight compared to similarly configured receivers, lower cost to similarly configured receivers Features Include: Compatibility with most common 9mm AR15 uppers and lower parts kits Compatible with Glock 17 and 19 Magazines Flared magwell to make reloads under stress easier to perform. A1 Length 13" Length of Pull (LOP) Buttstock to fit a wide range of shooters MLOK Slots at rear of stock for sling attachment points or run a strap through it for simple sling attachment Holes at the front of the stock for QD socket inserts for more sling attachment options Improved grip for comfortable use "Winter" Trigger Guard Mil-Spec FCG Lowers Include: Mil-Spec Fire Control FCG and Optimized Selector 5.4oz 9mm Heavy Buffer and Spring Bolt Catch Assembly* Pivot and Take Down Pins KP-9 Selector Detent Buttplate 5/64" Roll Pin to Retain Buffer Detent Ambi Glock Magazine Catch Assembly Adjustable 9mm Steel Ejector Technical Information The KP-9 receiver uses a Carbine buffer and spring. Do NOT use anything other than standard 9mm carbine buffers and round springs or the JP SCSS in the KP-9. The Take Down and Pivot Pins have the detents built into them, eliminating the spring and detent holes in the lower increases durability. The buffer detent (should you choose to use it) is held in place with a 5/64" Roll Pin The KP-9 is compatible with all Mil-Spec Fire Control Groups The KP-9 is compatible with cassette style match triggers including the KE Arms SLT units. The retention system of these triggers with D-Clips in the bushings to retain the fire control pins makes them better suited for use in the KP-9 than other designs that require captured pins.* The hammer pin area is wider for durability; Standard AR15 hammer pins can still be used but we offer a longer hammer pin for customers preferring a flush pin for aesthetic reasons. Safety selector spring and detent load from the top and then the selector is slid over them. Standard selectors can work but removing them can be particularly difficult. We recommend the use of our optimized mil-spec selector or optimized ambi selector to make removal easier. Follow our assembly guide for further instructions. The KP-9 is compatible with 9mm blowback systems with a 5.4oz carbine buffer minimum. Use heavier buffers as long as your gun can cycle reliably. Failure to use this minimum buffer weight can damage the lower. CMMG Radial Delayed Blowback Uppers will need modifications to the ejector to work. *Last Round Bolt Hold Open Last Bolt Hold Open Function is dependent upon the upper you use. The standard bolt catch does not interface with the Glock Magazine follower. Some uppers such as those from Gibbz Arms and New Frontier Armory have linkage systems that interface with the Glock magazine followers and extend back to the bolt catch. Without one of these uppers, the bolt catch can still be manually actuated to verify a clear firearm or make inserting a magazine with high tension easier. Cerakoting: If you intend to have your KP-9 Cerakoted we recommend you use We Plead the 2nd as they are experienced in coating polymer receivers and have our authorization. The bake should be done at low temperatures (<190 Degrees F) and with an upper in place to prevent warping. Known Compatible Match Triggers KE Arms SLT-1 KE Arms SLT-2 KE Arms RTS-1 REKLUSE

Attributes

- Name: [KP9 COMPLETE LOWER W/REKLUSE TRIGGER&AMBIDEXTROUS SELECTOR](#)
- Manufacturer: [KE ARMS](#)
- Product no.: 100042878
- Mfr. No.: 1-61-03-004
- Cartridge: 9 mm Luger
- Color: Black
- Finish: Black,Anodized
- Make: AR-15
- Style: Complete
- Delivery weight: 0.907kg
- Shipping height: 53mm
- Shipping width: 229mm
- Shipping length: 540mm

KP9 Complete Lower Receiver Safety Instruction Guide

Introduction

Thank you for purchasing the KP9 Complete Lower Receiver. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully before using the KP9 to familiarize yourself with its features and safety precautions.

General Safety Guidelines

- Ensure that you are of legal age to purchase and use this product in your jurisdiction.
- Always follow local laws and regulations regarding firearms and firearm accessories.
- Store the KP9 in a secure location, away from children and unauthorized users.
- Regularly inspect the KP9 for any signs of damage or wear.
- Use only compatible parts and accessories as specified in this guide.
- Always handle firearms with care, treating every firearm as if it is loaded.

Specific Safety Precautions for Use

- Do not use the KP9 with any noncompatible 9mm upper receivers or parts.
- Ensure that the firearm is unloaded before performing any maintenance or installation.
- Follow all instructions for the safe handling and operation of firearms.
- Use the KP9 only with standard 9mm carbine buffers and springs or the JP SCSS.
- Be aware that the KP9 is compatible with specific match triggers. Ensure proper installation to avoid malfunction.
- The KP9 is designed for adult users. Keep it out of reach of children and inexperienced users.
- If using the KP9 in a competitive setting, familiarize yourself with the specific rules and regulations of your event.

Instructions for Installation and Usage

1. Installation:

- Ensure the KP9 is in a safe condition (unloaded) before starting installation.
- Follow the assembly guide provided with your KP9 for detailed installation instructions.
- Use only the specified tools and parts for assembly.
- Ensure all components are securely fastened and properly aligned.

2. Usage:

- Always use the KP9 in a safe environment, such as a designated shooting range.
- Before firing, ensure that you have a clear and safe line of sight.
- Be aware of your surroundings and ensure that no one is in the vicinity of your shooting area.
- Use appropriate hearing and eye protection when firing.
- After firing, always check the firearm to ensure it is clear of obstructions and properly maintained.

Disposal Instructions

- Dispose of all packaging materials in accordance with local regulations.
- If the KP9 is no longer in use, follow local guidelines for the disposal of firearm components.
- Do not dispose of any firearm parts in regular household waste. Contact local authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or support related to the KP9 Complete Lower Receiver, please consult your local firearm dealer or manufacturer's website for further assistance.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your KP9 Complete Lower Receiver. Always prioritize safety and compliance with local laws when using firearms. Thank you for your attention to these important safety measures.
