

TAPS STANDARD - UNITY TACTICAL TAPS SUREFIRE/CRANE LASER 9", BLACK

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS allows placement of weapon accessories in optimal location while providing a single point of actuation of the operator's choosing. Rather than needing to place both light and laser where they can be activated directly, or needing to find places for multiple remote pressure pads while securing loose cables, TAPS literally places control at the operator's fingertips in a single, user-friendly package. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two onboard buttons and two accessory leads. TAPS comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. Custom configurations are available for contract (minimums apply). TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield. TAPS is a revolutionary paradigm shift in the way weapon-mounted electronic devices are operated. No other product puts this level of customization, command, or control in the operator's hands. It is the most low-profile, most secure, and most durable control station on the market. Welcome to the Modern Battlefield. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

Attributes

- Name: [UNITY TACTICAL TAPS SUREFIRE/CRANE LASER 9", BLACK](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043390

TAPS STANDARD UNITY TACTICAL TAPS SUREFIRE/CRANE LASER 9" Safety Instruction Guide

Introduction

Thank you for choosing the TAPS Standard Unity Tactical TAPS Surefire/Crane Laser 9". This product is designed to enhance your operational effectiveness by providing a reliable command and control system for weaponmounted electronics. This safety instruction guide aims to ensure the safe use of your TAPS device, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- **Product Safety:** Ensure safe use of the TAPS device by following all instructions and guidelines. This product is designed to meet safety standards for nonfood items, including new technologies.
- **Enhanced Recalls:** In the event of a product recall, you will receive standardized notices and free remedies for any dangerous products.
- **Online Shopping:** If purchased online, you have the same safety protections as when buying in physical stores. Ensure that the online platform meets safety requirements.
- **Special Consumer Focus:** Extra safeguards are in place for vulnerable groups, including children. Keep this product out of reach of children.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point for this product.
- **Rapid Alerts:** Stay informed about unsafe products through the Safety Gate system, which provides faster updates on product safety.

Specific Safety Precautions for Use

- **Age Restrictions:** This product is intended for use by adults only. Do not allow children to handle or operate the device.
- **Proper Handling:** Always handle the TAPS device with care. Avoid dropping or subjecting it to impact.
- **Moisture Exposure:** Although TAPS is waterproof to 1 meter for 30 minutes, avoid prolonged exposure to moisture to ensure longevity.
- **Battery Safety:** Ensure that batteries are installed correctly and are not damaged. Replace batteries with the same type as specified in the product documentation.
- **Secure Installation:** Ensure that the device is securely mounted to the weapon rail to prevent accidental detachment during use.
- **Avoid Overloading:** Do not connect more devices than the TAPS system is designed to handle. Refer to the specifications for maximum device limits.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure that the weapon is unloaded and safe to work with before installation.
2. **Mounting:**
 - Locate the industrystandard rail on your weapon (M1913 Picatinny, KEYMOD, or MLOK).
 - Align the TAPS device with the rail and slide it into place until it securely locks.
3. **Connection:**
 - Connect the Surefire Light lead and MILStandard/Crane Laser Lead to their respective devices.
 - Ensure all connections are secure and free from damage.
4. **Testing:**

- Once installed, test all functions of the TAPS device to ensure proper operation before use in the field.

Usage

- **Activation:**
 - Use the onboard buttons to activate the connected devices. The TAPS system allows for momentary activation based on your preference.
- **Adjusting Settings:**
 - Familiarize yourself with the control layout and practice using the device in a safe environment.
- **Maintenance:**
 - Regularly check the device and connections for wear and tear. Clean the device as needed to ensure optimal performance.

Disposal Instructions

- **Environmental Responsibility:** Dispose of the TAPS device in accordance with local regulations for electronic waste.
- **Battery Disposal:** Dispose of batteries separately according to local battery disposal guidelines. Do not throw batteries in regular trash.

Contact Information for Further Support

For any questions or concerns regarding the TAPS device, please refer to the designated EU contact point for support. Ensure you have your product details on hand for efficient assistance.

By following these safety instructions, you can ensure the safe and effective use of your TAPS Standard Unity Tactical TAPS Surefire/Crane Laser 9". Thank you for your attention to safety.
