The Original bag is the most common Edgewood bag used by benchrest shooters. Filled with heavy sand, it weighs between 10 and 14 lbs. depending on body height and has a footprint of about 6" x 8". We build it with reinforced leather sides and heavy nylon top and ears along with a multi-layered donut base which allows the bag to sit firmly on the bench and minimizes any rocking back and forth. EDGE model includes the following upgrades: Extra rigid, super flat bag base made with a unique material resists deformation over time ""Overlay Ears"" - Whether you choose slick material or cordura, a durable layer of leather is added underneath the material which contributes to consistency in shape and performance as well as extreme longevity and resistance to wear. Flatter ear space means the riding surface at the base of the ears has been redesigned to practically eliminate inconsistencies in the transition between the riding surface and the ear base. This remedies any potential drag or grabbing and increases longevity by removing an inherent wear point. Reinforced ear base isolates the ear set from the shape of the bag, contributing to consistency in the contact surface and ear spread. Embroidered cordura tops showcase our brand new logo and highlight the evolution of our designs.

Safety Instruction Guide for Edgewood Shooting Bags

Introduction

Thank you for choosing the Edgewood Shooting Bag (EDGE BAG ORIGINAL WITH GRAB HANDLE). This guide provides essential safety instructions to ensure the safe use and longevity of the product. Please read this guide carefully before using the bag.

General Safety Guidelines

- Ensure the bag is used only for its intended purpose as a shooting support.
- Always inspect the bag for any signs of wear or damage before each use.
- Keep the bag out of reach of children and vulnerable individuals when not in use.
- Avoid using the bag in wet conditions to prevent deterioration of materials.
- Do not overload the bag beyond its recommended weight limit (10 to 14 lbs).
- Follow all local laws and regulations regarding shooting activities.

Specific Safety Precautions for Use

- **Weight Management:** Ensure the bag is filled with heavy sand as recommended. Do not use alternative materials that may cause instability.
- **Surface Stability:** Use the bag on a flat and stable surface to minimize the risk of tipping or rolling.
- **Grip and Handling:** Always use the grab handle when lifting or moving the bag to avoid strain or injury.
- **Shooting Position:** Maintain a safe shooting position and ensure that others are at a safe distance when using the bag.
- **Environmental Awareness:** Be aware of your surroundings and ensure there are no obstructions or hazards in the shooting area.

Instructions for Installation and Usage

1. Filling the Bag:

- Fill the bag with heavy sand to achieve the desired weight. Ensure the filling is even to promote stability.

2. Setting Up the Bag:

- Place the bag on a flat surface.
- Ensure the multilayered donut base is in contact with the surface for maximum stability.

3. Using the Bag:

- Position your firearm securely on the bag, ensuring it is stable.
- Adjust your shooting position as necessary to maintain comfort and safety.

4. After Use:

- Remove any debris or dirt from the bag before storing.
- Store the bag in a dry place to prevent material degradation.

Disposal Instructions

When the Edgewood Shooting Bag reaches the end of its life cycle: * Dispose of the bag in accordance with local waste disposal regulations. * If the bag is damaged, ensure it is securely wrapped to prevent injury to others during disposal.
