APEX 10/EVOLUTION PRESS CALIBER CONVERSION KIT MARK 7 RELOADING APEX 10 CALIBER CONVERSION KIT 45 ACP Safety Instruction Guide

Introduction

Thank you for choosing the APEX 10/Evolution Press Caliber Conversion Kit Mark 7 Reloading APEX 10 Caliber Conversion Kit 45 ACP. This guide provides important safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before using the conversion kit, and keep it for future reference.

General Safety Guidelines

- Ensure that the conversion kit is used only with compatible Evo/Apex 10 presses.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when reloading ammunition.
- Keep the workspace clean and organized to prevent accidents and ensure safe handling of materials.
- Store the conversion kit and all reloading components out of reach of children and other unauthorized individuals.
- Be aware of the potential hazards associated with reloading, including the handling of gunpowder and primers.
- Regularly inspect your reloading equipment for wear and damage to prevent malfunctions.
- Follow all local laws and regulations regarding the reloading of ammunition.

Specific Safety Precautions for Use

- Before using the conversion kit, ensure that the press is powered off and unplugged.
- Check the conversion kit components for any visible damage before installation.
- Only use the specified caliber components (45 ACP) with this conversion kit.
- Do not exceed the recommended load specifications for the 45 ACP caliber.
- Avoid distractions while reloading to maintain focus and ensure safety.
- Do not use the conversion kit for any other purpose than intended.
- If you experience any malfunction or issue during use, stop immediately and consult the troubleshooting section of the manual or seek professional assistance.

Instructions for Installation and Usage

Installation

1. **Preparation:** Gather all necessary tools and components required for installation.
2. **Power Off:** Ensure that the Evo/Apex 10 press is turned off and unplugged.
3. **Remove Existing Shellplate:** Carefully remove the existing shellplate from the press.
4. **Install New Shellplate:** Align the new shellplate for the 45 ACP caliber onto the press and secure it firmly.
5. **Attach Case Feed Ram:** Connect the case feed ram to the press, ensuring it is properly seated.
6. **Install Case Feed Adapter:** Attach the case feed adapter, making sure it fits securely.
7. **Final Check:** Doublecheck all connections and ensure everything is tightly secured before plugging in the press.

Usage

1. **Setup:** Ensure all components are in place and the press is correctly set up for reloading 45 ACP.
2. **Loading:** Follow the manufacturer's reloading data for the specific loads you intend to use.
3. **Monitoring:** Continuously monitor the reloading process for any irregularities.
4. **Finishing:** Once reloading is complete, turn off and unplug the press before cleaning and storing the equipment.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of gunpowder or primers in regular trash. Contact local waste management for proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For safety inquiries or additional information regarding the APEX 10/Evolution Press Caliber Conversion Kit, please refer to the manufacturer's contact details provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective reloading experience with your APEX 10/Evolution Press Caliber Conversion Kit. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
