

# KP-15 OPTIMIZED AMBI SELECTOR - KE ARMS KP-15 OPTIMIZED AMBI SELECTOR BAR

[Rifle Parts](#) > [Safety Parts](#) > [Safeties](#)

The KP-15 Optimized Ambi Selector is made to be more easily removed from the KE Arms KP-15 Polymer Lower. Each side has the track notched so it can be placed halfway between safe and fire and pushed out with the selector arms removed. 6061-T6 Billet machined ambidextrous selector, Mil 8625 Type III Class 2 anodized. Reversible for traditional 90 degree arc, or short throw 45 degree arc. Allows operator to manipulate safety from either side of weapon. 17-4 Stainless Steel shaft, black melonite coated. Allen wrench included.

# KP15 Optimized Ambi Selector Safety Instruction Guide

## Introduction

Thank you for choosing the KP15 Optimized Ambi Selector by KE Arms. This product is designed for safe and effective operation in conjunction with the KE Arms KP15 Polymer Lower. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product.

## General Safety Guidelines

- Ensure that you are familiar with the operation and handling of firearms before using the KP15 Optimized Ambi Selector.
- Always treat your firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Do not place your finger on the trigger until you are ready to shoot.
- Store the selector and firearm in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the selector and firearm for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearm use and safety.

## Specific Safety Precautions for Use

- The KP15 Optimized Ambi Selector is designed for ambidextrous use. Ensure you are using the correct side for your dominant hand.
- Do not attempt to modify or alter the selector in any way; doing so may compromise safety and functionality.
- Always verify that the selector is in the safe position before handling the firearm.
- If you experience any difficulty with the selector, do not force it. Consult a qualified gunsmith or contact support for assistance.
- Ensure that the selector is fully engaged in either the safe or fire position before attempting to operate the firearm.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing selector from the KE Arms KP15 Polymer Lower.
- Align the KP15 Optimized Ambi Selector with the selector track, ensuring that the notches are correctly positioned.
- Push the selector into place until it clicks securely.
- Test the selector by moving it between the safe and fire positions to ensure proper installation.

### 2. Usage:

- To switch between safe and fire, use the selector arms on either side of the firearm.
- The selector can be set to a traditional 90degree arc or a short throw 45degree arc, depending on your preference.
- Always ensure that you are aware of the position of the selector before handling the firearm.

## Disposal Instructions

- Dispose of the KP15 Optimized Ambi Selector in accordance with local regulations regarding electronic and mechanical waste.
- Do not dispose of the selector in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the KP15 Optimized Ambi Selector, please refer to the manufacturer's website or contact your local authorized dealer. Ensure that you have the product details ready for more efficient assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your KP15 Optimized Ambi Selector. Thank you for your attention to safety.
