

# KP-15 CAPTURED FIRE CONTROL PINS - KE ARMS KP-15 CAPTURED FIRE CONTROL PINS

[Rifle Parts](#) > [Receiver Parts](#) > [Receiver Hardware](#) > [Receiver Pins](#)

Captured fire control pins for the KP-15. The hammer pin area of the KP-15 Polymer Receiver is wider than traditional receivers. Ideal for use with cassette triggers that do not have retention of the pins built in. Dual screw design allows the user to secure any fire control group that fits in the KP-15. Includes: 1 Long Hammer Pin 1 Standard Trigger Pin 2 1/16"" Allen Wrenches 4 Screws\* These pins are not required for use with the DMR, SLT-1, SLT-2, or Mil-Spec Fire Control Groups. They can however be used together. \*use of blue thread locker is recommended on screws.

## Attributes

# Safety Instruction Guide for KP15 Captured Fire Control Pins

## Introduction

Thank you for choosing the KP15 Captured Fire Control Pins by KE Arms. This guide provides essential safety information and instructions to ensure the safe use and installation of the product. Please read this document carefully before use.

## General Safety Guidelines

- Product Safety:
  - Ensure that the KP15 Captured Fire Control Pins are used in accordance with the manufacturer's instructions.
  - Always handle the pins with care to avoid injury or damage to the product.
- Enhanced Recalls:
  - Stay informed about any recalls or safety notices related to this product.
  - Follow the manufacturer's instructions for returning or remedying any recalled items.
- Online Shopping:
  - When purchasing online, ensure that the retailer complies with safety regulations and provides proper product information.
- Special Consumer Focus:
  - Keep the product out of reach of children and vulnerable individuals to prevent accidental use or injury.
- EU Contact Point:
  - For any safety inquiries, please refer to the manufacturer or authorized dealer.
- Rapid Alerts:
  - Regularly check the EU's Safety Gate platform for updates on product safety and recalls.

## Specific Safety Precautions for Use

- Ensure that the KP15 is compatible with the fire control group you intend to use.
- Always use the recommended tools and follow the installation instructions provided.
- Be cautious of sharp edges when handling the pins and screws.
- Use blue thread locker on screws to secure the installation and prevent loosening.
- Do not use the pins with DMR, SLT1, SLT2, or MilSpec Fire Control Groups unless specified.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including the provided Allen wrenches and screws.
- Ensure that you are working in a clean, welllit area.

### 2. Installation Steps:

- Remove any existing fire control group from the KP15 Polymer Receiver.
- Align the long hammer pin and standard trigger pin with the designated holes in the receiver.
- Insert the long hammer pin first, followed by the standard trigger pin.
- Secure the pins in place using the screws provided.
- Tighten the screws using the Allen wrenches, ensuring they are snug but not overtightened.
- Apply blue thread locker to the screws for added security.

### 3. Usage:

- After installation, check the functionality of the fire control group.
- Ensure that the pins are securely in place before operating the firearm.
- Regularly inspect the pins and screws for any signs of wear or loosening.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, follow specific electronic waste disposal guidelines if applicable.

## Contact Information for Further Support

For any questions or concerns regarding the KP15 Captured Fire Control Pins, please refer to the manufacturer's website or authorized dealer for assistance.

By adhering to these safety instructions, you can ensure the safe and effective use of the KP15 Captured Fire Control Pins. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
