

AR-15 ANGLED GRIPS W/ CABLE MANAGEMENT FUNCTION - STRIKE INDUSTRIES AR-15 ANGLED GRIP LONG W/CABLE MANAGEMENT FUNCTION FDE

[Rifle Parts](#) > [Grip Parts](#) > [Pistol Grips](#)

The Strike Industries Angled Vertical Grip with Cable Management is engineered like no other grip on the market. The grip angle sits on the handguard at 86 degrees. Patent pending SI cable management function enables you to organize and store excess wire from your weapon light or any other cabled accessories in multiple configurations. Instead of tucking wire anywhere you can and using cable ties or tape to hold it down, the cable management feature will offer you a place to route and/or contain loose wire inside the grip cavity. The side cuts at the top middle of the grip allow for easier pressure switch attachment. Compared to the Short version, the Long version has an added built-in stability feature when you place the L-shaped bottom onto a table edge/corner or as a barricade stop, giving you another way to get back on target faster downrange. The Short version can be mounted in either direction for your own preferred and personal setup and its low-profile form helps to minimize snags. The forward angle provides more of a natural wrist angle and increased rigidity of forearm. Designed with textured palm and finger areas with flat sides for positive handling and easier manipulation of the firearm. Made from durable and lightweight polymer compatible with M-LOK rails, the Strike Industries Angled Vertical Grip with Cable Management (Long) gives the shooter control while handling or firing the weapon, added stability (Long) with table/edge corner or as a barricade stop and an innovative way to ensure total cable management. No messy wires. 86° grip angle Built-in cable management w/ excess wire storage (patent pending) Forward angle provides more of a natural wrist angle and increased rigidity of forearm Side cuts at top of grip for pressure switch cable routing Built-in stability when L-shaped bottom is placed on a table edge/corner or as a barricade stop (Long) Low-profile design to minimize snags (Short) Can be mounted in either direction for preferred setup (Short) Textured palm and finger areas with flat sides for better weapon manipulation control Made from durable and lightweight polymer For M-LOK rails

Attributes

- Name: [STRIKE INDUSTRIES AR-15 ANGLED GRIP LONG W/CABLE MANAGEMENT FUNCTION FDE](#)
- Manufacturer: [STRIKE INDUSTRIES](#)
- Product no.: 100050472
- Mfr. No.: SI-AR-CMAG-L-FD
- Colour: Flat Dark Earth
- Material: Polymer
- Weapon type: AR-15
- Delivery weight: 0.072kg
- Shipping height: 44mm
- Shipping width: 51mm
- Shipping length: 140mm
- UPC: 793811764529

Safety Instruction Guide for AR15 Angled Grips with Cable Management Function

Introduction

Thank you for choosing the Strike Industries AR15 Angled Grip with Cable Management Function. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure that the product is used only as intended, in accordance with the manufacturer's instructions.
- Regularly inspect the grip for any signs of wear or damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- If you experience any issues with the product, discontinue use immediately and consult a qualified professional.
- Be aware of your surroundings when handling firearms and ensure that all safety protocols are followed.

Specific Safety Precautions for Use

- Always ensure that your firearm is unloaded before attaching or removing the grip.
- When using the cable management feature, ensure that wires are securely routed and do not interfere with the operation of the firearm.
- Avoid using excessive force when installing or adjusting the grip to prevent damage.
- Be mindful of the grip's angle when aiming, as improper positioning may affect accuracy and control.
- Do not use the grip if it shows signs of damage or if any components are missing.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure the firearm is unloaded and in a safe condition.
2. **Positioning:** Identify the desired location on the handguard for mounting the grip.
3. **Mounting:**
 - Align the grip with the MLOK rail.
 - Use the appropriate hardware provided with the grip to secure it in place.
 - Tighten the screws until the grip is firmly attached, but do not overtighten.
4. **Cable Management Setup:**
 - Route any excess wires through the cable management feature as per your preference.
 - Ensure that wires are contained within the grip cavity and do not obstruct the firearm's operation.

Usage

- Grip the angled grip firmly with your dominant hand, ensuring that your fingers are positioned appropriately for control.
- Maintain a natural wrist angle while aiming to enhance stability and reduce fatigue.
- Use the side cuts at the top of the grip for securing pressure switch cables to streamline your setup.
- If using the grip as a barricade stop, ensure it is stable and secure before applying pressure.

Disposal Instructions

- Dispose of the product in accordance with local regulations for plastic waste.
- Do not incinerate, as this may release harmful substances.

- If the product is damaged beyond repair, ensure it is disposed of safely to prevent accidental use.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of this product, please reach out to the designated EU contact point provided with your purchase. It is important to have this information available for any safetyrelated questions or issues.

Conclusion

By following these safety instructions, you can ensure a secure and effective experience with the Strike Industries AR15 Angled Grip with Cable Management Function. Always prioritize safety and responsible firearm handling practices. Thank you for your attention to these important guidelines.
