

AR-15 AMBIDEXTROUS BOLT RELEASE

[Home](#)

The new PDQ Ambidextrous-bolt release, for AR15 puts the operator in control of the firing grip at all times. The trigger finger moves from trigger to mag release to bolt release smoothly without moving the weapon from the shoulder. That is why it is called PDQ (pretty damn quick). When seconds count and your life and others are depending on you, count on PDQ. The PDQ Ambidextrous-Bolt Release, Military grade steel Mil Spec 8526 Class 3 type 2 coated Allows user to lock the bolt back as well as send the bolt forward Made in the USA

Safety Instruction Guide for the AR15 Ambidextrous Bolt Release

Introduction

Thank you for choosing the PDQ Ambidextrous Bolt Release for your AR15. This product is designed to enhance your control and efficiency while operating your firearm. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Ensure that the firearm is pointed in a safe direction at all times.
- Familiarize yourself with the operating manual of your firearm and the PDQ Ambidextrous Bolt Release before use.
- Store this product and your firearm in a secure location, away from children and unauthorized users.
- Regularly inspect your firearm and accessories for any signs of wear or damage.

Specific Safety Precautions for Use

- Ensure that the PDQ Ambidextrous Bolt Release is compatible with your AR15 model before installation.
- Do not attempt to use the bolt release while the firearm is in a closed position.
- Always ensure that the firearm is unloaded before performing any maintenance or modifications.
- Avoid using excessive force when operating the bolt release to prevent damage to the mechanism.
- In the event of a malfunction, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation

1. **Gather Required Tools:** You will need a screwdriver and any other tools specified in your AR15 manual.
2. **Unload the Firearm:** Ensure that your AR15 is completely unloaded.
3. **Remove the Existing Bolt Release:**
 - Follow the instructions in your AR15 manual to safely remove the existing bolt release.
4. **Install the PDQ Ambidextrous Bolt Release:**
 - Align the PDQ bolt release with the mounting area.
 - Secure it in place using the screws provided.
5. **Test the Installation:**
 - Once installed, manually check the bolt release to ensure it operates smoothly.

Usage
