

CZ 527 16MM HD PICATINNY SCOPE MOUNT - CZ 527 16MM 1-PIECE PICATINNY BASE 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

Picatinny cross slots run the full length of the rail, which gives the shooter flexibility when mounting scope rings and other accessories. EGW one-piece scope mounts are the obvious choice for hunters and tactical shooters alike. This mount is a Picatinny-style base and compatible with Picatinny or Weaver scope rings. EGW machines these in their shop using one of their machining centers. After machining, the mounts are tumbled, sand blasted, and Type III anodized for long lasting durability. Recommend: 0 MOA -if shooting 0-500 yards 20 MOA -if shooting 500-1000 yards When zeroing your rifle with a 20 MOA mount, EGW recommends zeroing at 200 yards. Installation: EGW recommends 20 inch lbs of torque and a drip of blue loctite (loctite is sold separately). The entire mount and accessories (from the mounting screws and wrench down to the packaging) are made in the USA.

Attributes

- Name: [CZ 527 16MM 1-PIECE PICATINNY BASE 20 MOA](#)
- Manufacturer: [EGW](#)
- Product no.: 296000763

Safety Instruction Guide for CZ 527 16MM HD Picatinny Scope Mount

Introduction

Thank you for choosing the CZ 527 16MM HD Picatinny Scope Mount. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the mount and accessories for any damage before each use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or product malfunctions to the appropriate authorities.
- Regularly check for updates on product recalls through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the mount is compatible with your firearm before installation.
- Use only the recommended scope rings for proper fitting and safety.
- Avoid overtightening the screws during installation to prevent damage.
- Always use the specified torque (20 inch lbs) when securing the mount.
- Apply a drop of blue Loctite to screws to ensure stability (Loctite sold separately).
- When zeroing your rifle, follow the recommended distance for the mount type:
 - 0 MOA if shooting 0500 yards
 - 20 MOA if shooting 5001000 yards
- It is recommended to zero at 200 yards when using a 20 MOA mount.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and blue Loctite.
- Ensure your firearm is unloaded and pointed in a safe direction.

2. Installation Steps:

- Place the Picatinny scope mount onto the firearm's base.
- Align the mount with the provided cross slots.
- Insert the mounting screws through the mount and into the firearm.
- Tighten the screws to the specified torque of 20 inch lbs.
- Apply a drop of blue Loctite to secure the screws if desired.

3. Usage:

- After installation, check that the scope is securely mounted.
- Conduct a test fire to ensure proper alignment and functionality.
- Make any necessary adjustments based on your shooting requirements.

Disposal Instructions

- Dispose of the product and packaging materials in accordance with local regulations.
- Do not dispose of the product in household waste. Check for recycling options in your area.

Contact Information for Further Support

For any inquiries or further assistance, please refer to the appropriate contact channels as specified by the manufacturer.

Thank you for your attention to these safety guidelines. Enjoy your shooting experience with the CZ 527 16MM HD Picatinny Scope Mount.
