[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [FORSTER PRODUCTS, INC. 280 REMINGTON GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319418100
- Mfr. No.: HG0280G
- Cartridge: 280 Remington
- Colour: Steel
- Height: 0.469"
- Length: 2.1"
- Material: Steel
- Model Number: 280 Remington GO
- Style: Go Gauge
- Weight: 0.117 lbs

- Width: 0.469"
- Delivery weight: 0.045kg
- Shipping height: 18mm
- Shipping width: 66mm
- Shipping length: 28mm
- UPC: 757253004452

Safety Instruction Guide for HEADSPACE GAUGES FORSTER PRODUCTS, INC.

Introduction

Thank you for choosing the HEADSPACE GAUGES from FORSTER PRODUCTS, INC. This guide provides essential safety instructions to ensure the safe use of the 280 Remington GO GAUGE headspace gauge. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Always ensure that the headspace gauge is used in accordance with the manufacturer's instructions to prevent accidents or injuries.
- Inspect the gauge for any signs of damage or wear before each use. Do not use if damaged.
- Keep the gauge out of reach of children and vulnerable individuals.
- Use the gauge only for its intended purpose, which is to measure headspace in firearms.
- Store the gauge in a safe and dry place when not in use to avoid corrosion or damage.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

• Hazard Identification:

- The gauge is designed to measure the headspace of a rifle chamber. Improper use can lead to misfires or accidents.
- Using a gauge that is not compatible with your firearm can result in dangerous situations. Always verify compatibility.

• Avoiding Hazards:

- Always check the gauge against SAAMI specifications to ensure it is appropriate for your firearm.
- Never attempt to modify the gauge or use it for purposes other than measuring headspace.
- Always wear appropriate safety gear, including eye protection, when using firearms.

• Audience Specific Warnings:

- This product is intended for use by individuals who are knowledgeable about firearms and gunsmithing. It is not suitable for inexperienced users.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Familiarize yourself with the rifle's chamber and the gauge specifications.

2. Using the Gauge:

- Insert the GO gauge into the chamber of the firearm.
- Gently close the bolt on the rifle. The bolt should close completely without resistance. If it does not, the headspace is too short.
- Remove the gauge and insert the NOGO gauge (if applicable). Close the bolt again. If the bolt closes on the NOGO gauge, the headspace is too long, and adjustments are necessary.

3. Post Use:

- After testing, clean the gauge to remove any debris or residue.
- Store the gauge in its protective case to prevent damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the gauge in general household waste.
- If the gauge is damaged, consult local waste management services for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the manufacturer's website or customer service for assistance.

Thank you for following these safety instructions. Your safety is our priority. Enjoy using your HEADSPACE GAUGE responsibly!
