

PRO 700 LITE SA STOCKS - MAGPUL PRO 700 LITE SA ADJUSTABLE STOCK FOR REMINGTON 700 SA FDE

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

Maintaining the most important features of their original Pro 700, the Pro 700 Lite SA strikes a balance between features and cost without sacrificing performance. As the name suggests, the Pro 700 Lite SA blends the original Pro 700 Chassis and the PRS Lite stock to create a simplified rear end with a strong foundation – passing on the value and weight savings to you. The streamlined design weighs in at 4.4 pounds, a full pound less than its predecessor, but still packs a complete set of features that elevate your rifle's performance. The Pro 700 Lite SA provides an optimized shooter interface with 0.8" of comb height and 1.4" of LOP adjustments. The low-profile rubber butt-pad is adjustable for height and cant, providing an extremely stable interface with the shooter's shoulder. Sling attachment options include an ambidextrous 1.25" footman's loop, a reversible QD sling swivel cup, and space for another optional QD sling swivel cup. The injection-molded polymer grip has a 5-degree forward edge sweep and enlarged palm swell with a 7-degree aft edge sweep for enhanced user comfort, and it includes a 0.75" fore/aft adjustment range using a common hex wrench. An additional grip is included, offering a more aggressive sweep and enlarged palm swell for the shooter who is more inclined to a less vertical grip interface (8-degree forward / 20-degree aft edge sweep). The Pro 700 Lite SA surrounds its billet aluminum chassis with Magpul polymer for enhanced ergonomics, strength, and sound mitigation. Built around the user, it is fully ambidextrous at the swap of a bolt retainer plate, and the vertical grip can be adjusted for various trigger reaches. The included large trigger guard can accommodate usage with gloves and aftermarket triggers. The AICS-pattern magazine well features an ambidextrous mag release and has a front barricade stop to prevent the rifle from resting on the magazine when using barricade support. Up front, there are numerous M-LOK slots (left-6/right-6/bottom-7) allowing you to mount whatever accessories your loadout calls for. Extremely versatile and adaptable, the Pro 700 Lite SA turns your short action 700-pattern rifle into the perfect bolt action precision machine. Made in the USA. Fully machined Type III hard anodized aluminum forend and V-bedding block Compatible with left and right-handed actions with swappable QD sling swivel and bolt retainer plates Comb height, LOP, and butt-pad adjustment from PRS Lite Integrated AICS pattern magazine well optimized for PMAG® 5 & PMAG® 10 7.62 AC magazines as well as most other AICS pattern short action magazines Low-profile, anti-snag ambidextrous magazine release is made of Melonite® treated steel A large trigger guard allows for use with gloves and accepts most factory and aftermarket curved or flat triggers Injection molded polymer grip with 5 degree forward edge sweep and enlarged palm swell with 7 degree aft edge sweep Additional grip option included with a more aggressive angle (8 degree forward / 20 degree aft edge sweep) Grips adjustable 0.75" fore and aft

Safety Instruction Guide for PRO 700 LITE SA Adjustable Stock

Introduction

Thank you for choosing the PRO 700 LITE SA Adjustable Stock for your Remington 700 Short Action. This product is designed to enhance your shooting experience while ensuring safety and performance. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product.

General Safety Guidelines

To promote safe usage of the PRO 700 LITE SA Adjustable Stock, please adhere to the following guidelines:

- Always follow the manufacturer's instructions when using the product.
- Ensure that the stock is properly installed on your firearm before use.
- Regularly inspect the stock for any signs of wear or damage.
- Keep the product out of reach of children and unauthorized users.
- Do not use the stock in conditions that may compromise your safety or the safety of others.
- Report any unsafe product incidents to the relevant authorities.

Specific Safety Precautions for Use

Before using the PRO 700 LITE SA Adjustable Stock, please consider the following safety precautions:

- Ensure the firearm is unloaded and pointed in a safe direction when installing or adjusting the stock.
- Adjust the comb height and length of pull (LOP) to fit your body size and shooting style.
- Use the adjustable rubber buttpad to achieve a comfortable fit against your shoulder.
- Be cautious when using sling attachments; ensure they are secure before use.
- Avoid using the stock with aftermarket modifications that are not approved by the manufacturer.
- Always wear appropriate eye and ear protection when shooting.

Instructions for Installation and Usage

To ensure the safe and effective use of the PRO 700 LITE SA Adjustable Stock, follow these installation and usage instructions:

Installation

1. **Preparation:** Ensure the firearm is unloaded and the safety is engaged.
2. **Remove the Existing Stock:** Use a suitable tool to remove the screws holding the existing stock in place.
3. **Attach the PRO 700 LITE SA Stock:**
 - Align the stock with the action of the firearm.
 - Securely fasten the stock to the action using the provided screws.
4. **Adjustments:**
 - Adjust the comb height by loosening the adjustment screws and repositioning the comb to the desired height.
 - Adjust the length of pull (LOP) by sliding the buttpad to the preferred position and securing it in place.

Usage

- **Shooting Position:** Ensure the stock is properly adjusted to fit your shoulder and eye level.
- **Sling Attachment:** Attach your sling to the ambidextrous footman's loop or QD sling swivel cup.

- **Grip Adjustment:** If using the additional grip, replace the standard grip by unscrewing it and following the same installation steps.
- **Maintenance:** Clean the stock regularly with a soft cloth and check for any signs of wear or damage.

Disposal Instructions

When the PRO 700 LITE SA Adjustable Stock reaches the end of its life cycle, please dispose of it responsibly:

- Check local regulations for guidelines on disposing of polymer and aluminum materials.
- Consider recycling options for the stock components where available.
- Do not dispose of the stock in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any inquiries regarding the PRO 700 LITE SA Adjustable Stock, please refer to the manufacturer's website or contact your local dealer for assistance.

By following these safety instructions, you can enjoy the enhanced performance of your PRO 700 LITE SA Adjustable Stock while ensuring your safety and the safety of others. Thank you for your attention to these important guidelines.
