

# AR-15 LIBERTY AMBIDEXTROUS CHARGING HANDLE - SONS OF LIBERTY GUN WORKS LIBERTY 5.56MM AMBI STANDARD LATCH CHARGING HANDLE FOR AR-15

[Rifle Parts](#) > [Bolt Parts](#) > [Charging Handle Parts](#) > [Charging Handles](#)

The Liberty Charging Handle (LCH) from Sons of Liberty Gun Works is designed to increase form and function in both suppressed and unsuppressed rifles. It is ambidextrous to allow fluid consistent motion when utilizing either strong or support side shooting. The size and shape of the latches allow for a snag-free operation. The LCH employs a lip at the rear creating a seal in the back of the upper receiver to interrupt gas during suppressed fire. The LCH is machined from aircraft-grade 7075 and anodized to Mil-Spec Hard Coat Type III specifications. SOLGW didn't reinvent the wheel...they just made it better

# Safety Instruction Guide for AR15 Liberty Ambidextrous Charging Handle

## Introduction

Thank you for choosing the AR15 Liberty Ambidextrous Charging Handle from Sons of Liberty Gun Works. This product is designed to enhance the performance and usability of your AR15 rifle. Please read and follow these safety instructions carefully to ensure safe and effective use of the charging handle.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure that the firearm is pointed in a safe direction at all times.
- Keep your fingers off the trigger until you are ready to shoot.
- Store firearms and ammunition securely, out of reach of children and unauthorized users.
- Regularly inspect your charging handle and firearm for signs of wear or damage.
- Follow all local laws and regulations regarding firearm ownership and use.

## Specific Safety Precautions for Use

- The charging handle is designed for ambidextrous use. Ensure you are familiar with its operation from both sides.
- Always use the charging handle with a properly functioning firearm.
- Do not modify the charging handle or any part of the firearm without consulting a qualified gunsmith.
- Be cautious when using the charging handle in a suppressed firearm to avoid gas blowback.
- If you experience any difficulties with the charging handle, cease use immediately and inspect for issues.

## Instructions for Installation and Usage

### Installation

1. Ensure the firearm is unloaded and pointed in a safe direction.
2. Remove the existing charging handle from the upper receiver by pulling it out while pushing the latch.
3. Align the Liberty Charging Handle with the receiver and slide it into place until it clicks.
4. Verify that the charging handle operates smoothly and securely.

### Usage

- To operate the charging handle, grasp the latch with your dominant hand and pull back to charge the firearm.
- You can use your support hand to assist if needed, especially in ambidextrous operation.
- Ensure that the charging handle is fully engaged before attempting to fire the weapon.
- After firing, check the charging handle for any obstructions or malfunctions.

## Disposal Instructions

- Dispose of the charging handle in accordance with local regulations regarding metal products.
- Do not throw the charging handle in regular household waste. Instead, consider recycling options.
- Ensure that all components are disposed of safely to avoid any potential hazards.

## Contact Information for Further Support

For further assistance or inquiries regarding safety concerns, please refer to the appropriate contact points

provided by the manufacturer or your local regulatory authority.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with the AR15 Liberty Ambidextrous Charging Handle. Always prioritize safety and responsibility when handling firearms. Thank you for your attention to these important guidelines.
