

# DELTA BAG - SPIRITUS SYSTEMS DELTA BAG COYOTE BROWN

[Emergency & Survival Gear](#) > [Backpacks & Bags](#) > [Backpacks](#)

The Delta Bag is a compact, assault medic bag that is designed to be worn over a plate carrier and hold a wide variety of medical supplies and equipment. The front of the bag is divided into three uniformly sized compartments with diagonal zipper access that enables the end user to quickly access the entire pocket without having to reposition any of its contents. The unique configuration also aids in passive retention of gear when the compartment is opened. The main compartment of the Delta Bag is a clamshell design with two full fields of loop that can accept any hookbacked accessories (including the entire line of Spiritus Systems utility inserts, and other 3rd party products). The bag can be transported with the clamshell in the open position from location to location using the integrated briefcase handles, and provides an intuitive workstation when emergency medical care is being administered. The back side of the pack features two slim compartments for keeping flat-pack items secure and damage free, and keeps the pack close to the body when worn. The included straps for the delta bag are removable and replaceable with any 3rd party straps that attach with 1" webbing. The bag features four sewn-in metal tri-glide mounting points for strap integration. The Delta bag features mesh and metal eyelets in key locations for full water drainage capability, and is designed to remain effective and accessible in austere environments.

## Attributes

- Name: [SPIRITUS SYSTEMS DELTA BAG COYOTE BROWN](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)

# Delta Bag Spiritus Systems Safety Instructions

## Introduction

Thank you for choosing the Delta Bag by Spiritus Systems. This compact assault medic bag is designed for efficient use in emergency medical situations. To ensure your safety and the optimal performance of your Delta Bag, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the bag is used for its intended purpose only, which is to carry medical supplies and equipment.
- Regularly inspect the bag for any signs of wear or damage. Do not use if damaged.
- Always secure the bag properly when in use to prevent accidental opening and loss of contents.
- Keep the bag out of reach of children to avoid misuse or injury.
- Familiarize yourself with the bag's features and compartments before use to ensure quick access during emergencies.
- Follow all local regulations and guidelines regarding the use and transportation of medical supplies.

## Specific Safety Precautions for Use

- Ensure that all medical supplies stored in the bag are within their expiration dates and properly sealed.
- Do not overload the bag beyond its intended capacity to maintain structural integrity and ease of transport.
- Avoid exposure to extreme temperatures, moisture, or direct sunlight for prolonged periods, as this may affect the bag's materials and functionality.
- When using the bag in austere environments, be cautious of surrounding hazards that may damage the bag or its contents.
- Use the integrated briefcase handles to carry the bag safely; avoid lifting it by the compartments or zippers.

## Instructions for Installation and Usage

### 1. Initial Setup:

- Open the bag fully to access all compartments.
- Organize your medical supplies and equipment in the designated compartments for easy access.
- Secure any hookbacked accessories to the loop fields inside the main compartment.

### 2. Transporting the Bag:

- Use the integrated briefcase handles to carry the bag.
- Ensure the clamshell design is secured when moving the bag to prevent contents from spilling out.

### 3. Using the Bag in Emergency Situations:

- Open the bag fully to access all medical supplies quickly.
- Utilize the mesh and metal eyelets for drainage if the bag becomes wet.
- Maintain a clear area around you to ensure easy movement and access to the bag.

### 4. Maintenance:

- Clean the bag regularly with a damp cloth and mild detergent.
- Allow the bag to air dry completely before storing it.

- Check all straps and mounting points for wear and replace if necessary.

## **Disposal Instructions**

- When the bag has reached the end of its useful life, dispose of it in accordance with local waste disposal regulations.
- Recycle any components that are recyclable, such as fabric or metal parts, if applicable.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the Delta Bag, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

Thank you for prioritizing your safety and the safety of others while using the Delta Bag.
