

SCOPE RAIL PICATINNY FOR RUGER® AMERICAN - AREA 419 SCOPE RAIL 20MOA FOR RUGER AMERICAN PICATINNY BLACK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

With the explosion in popularity of the Ruger American line of rifles, it only made sense to add their scope bases to Area 419's product line! This design, made from a single piece of T7075 aluminum and machined in house on Area 419's world-class machining centers is designed to fit precisely, and strong enough that your rifle will never budge it - all while providing the elevation you need for longer shots. Bases will come Type III black hardcoat anodized and will come with the necessary wrench for torquing the clamp screws. Recommended torque spec: 15 in/lb Rail comes in a 20MOA cant as a great all-purpose mount.

Safety Instruction Guide for SCOPE RAIL PICATINNY FOR RUGER® AMERICAN

Introduction

Thank you for choosing the SCOPE RAIL PICATINNY FOR RUGER® AMERICAN. This product is designed to enhance your shooting experience by providing a stable and precise mounting platform for your scope. To ensure your safety and the effective use of this product, please read and follow the guidelines outlined in this document.

General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or adjusting the scope rail.
- Inspect the product for any damage or defects before use. Do not use if damaged.
- Keep the product out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding firearm modifications and accessories.
- Be aware of your surroundings and ensure a safe shooting environment at all times.

Specific Safety Precautions for Use

- Ensure that the scope rail is compatible with your Ruger® American model.
- Use only the recommended torque specifications (15 in/lb) when tightening the clamp screws to avoid damage.
- Avoid overtightening, as this may lead to stripping of screws or damage to the rail or firearm.
- Regularly check the scope rail for signs of wear or loosening, especially after extended use.
- Do not modify the scope rail in any way, as this may compromise its safety and effectiveness.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including the provided wrench for torquing the clamp screws.
- Ensure that your firearm is in a safe and stable position.

2. Installation Steps

- Remove any existing scope mounts or bases from your Ruger® American.
- Align the SCOPE RAIL PICATINNY with the mounting holes on your rifle.
- Carefully place the rail onto the rifle, ensuring it fits snugly.

3. Securing the Rail

- Using the provided wrench, tighten the clamp screws to the recommended torque specification of 15 in/lb.
- Check that the rail is securely attached and does not move when gently pulled.

4. Scope Mounting

- Attach your scope to the Picatinny rail according to the scope manufacturer's instructions.
- Ensure that the scope is securely mounted and properly aligned for optimal performance.

5. Final Checks

- Inspect the entire setup to ensure everything is secure and functioning correctly.

- Conduct a test fire in a safe environment to verify the stability and accuracy of the scope.

Disposal Instructions

- Dispose of packaging materials in accordance with local recycling guidelines.
- If the product reaches the end of its life or is no longer in use, dispose of it responsibly. Check local regulations for proper disposal of aluminum materials.

Contact Information for Further Support

If you have any questions or require further assistance, please reach out to the designated EU contact point for safety inquiries related to this product.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with the SCOPE RAIL PICATINNY FOR RUGER® AMERICAN. Always prioritize safety and responsible use when handling firearms and related accessories. Thank you for your attention to these guidelines.
