Safety Instruction Guide for BUSHING FULL LENGTH ULTRA MICROMETER DIE SET

Introduction

Thank you for choosing the Bushing Full Length Ultra Micrometer Die Set from Forster Products, Inc. This guide provides essential safety instructions to ensure the safe use of this product. Please read this guide carefully before using the die set.

General Safety Guidelines

- Ensure that the die set is used only for its intended purpose: reloading ammunition for the 6 GT cartridge.
- Always handle reloading equipment with care and keep it out of reach of children and vulnerable individuals.
- Store the die set in a cool, dry place, away from direct sunlight and moisture.
- Inspect the die set for any signs of damage before each use. Do not use if damaged.
- Maintain a clean workspace to avoid accidents and ensure safe handling of components.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses when reloading ammunition.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for the 6 GT cartridge.
- Use only highquality components that are compatible with the die set.
- Be aware of potential hazards related to the reloading process, such as:
 - Explosive reactions from improper handling of gunpowder.
 - Injury from sharp tools or components.
- Ensure that you are familiar with the reloading process before beginning. If uncertain, seek guidance from experienced reloaders or refer to reputable reloading manuals.
- Never reload in a confined space or near open flames.

Instructions for Installation and Usage

1. Installation of the Bushing Die:

- Remove the die from the packaging and inspect for any damage.
- Secure the bushing die into the reloading press according to the manufacturer's instructions.
- Adjust the die to the desired depth for resizing the cartridge.

2. Installation of the Ultra Micrometer Seater Die:

- Insert the Ultra Micrometer Seater Die into the reloading press.
- Set the micrometer to the desired seating depth for the bullet.
- Ensure that the die is securely fastened.

3. Reloading Process:

- Prepare your workspace and gather all necessary components.
- Follow the specific reloading data for the 6 GT cartridge, ensuring that you adhere to recommended powder charges and bullet seating depths.
- Carefully resize and seat the bullets according to the instructions provided with the die set.
- Inspect each cartridge after reloading for any defects or irregularities.

4. PostUse Care:

- Clean the die set after use to remove any residue or debris.
- Store the die set in the Deluxe Die Box to protect it from damage.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not discard ammunition or reloading materials in regular household waste.
- Check with local authorities for proper disposal methods for hazardous materials.

Contact Information for Further Support

For any inquiries related to safety or product support, please refer to the manufacturer's website or customer service resources.

Thank you for prioritizing safety while using the Bushing Full Length Ultra Micrometer Die Set. Your adherence to these guidelines helps ensure a safe and enjoyable reloading experience.
