

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 6.8MM WESTERN FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Safety Instruction Guide for Forster Full Length Sizing Dies

Introduction

Thank you for choosing the Forster Full Length Sizing Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before using the die.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling reloading equipment.
- Keep the reloading area clean and organized to prevent accidents.
- Ensure that all tools and equipment are in good working condition before use.
- Store the die in a secure location, out of reach of children and unauthorized users.
- Be aware of the specific cartridge type (6.8 mm Western) and ensure compatibility with your reloading setup.

Specific Safety Precautions for Use

- **Hazard Identification:** Improper use of the die can lead to accidents, including injuries from flying debris or equipment malfunction.
- **Avoid Overloading:** Do not exceed the recommended load specifications for your reloading process.
- **Inspect Before Use:** Check the die for any signs of damage or wear before each use. Do not use if damaged.
- **Follow Manufacturer Instructions:** Always adhere to the instructions provided by Forster Products, Inc. for safe operation.
- **Keep Away from Heat Sources:** Store the die away from direct heat or flame to prevent damage.

Instructions for Installation and Usage

- **Installation:**
 - Secure the die in a suitable reloading press, ensuring it is tightly fastened.
 - Adjust the die height according to the manufacturer's specifications for optimal performance.
- **Usage:**
 - Start the reloading process by inserting the empty case into the die.
 - Use the EZ Out Expander button to maintain case neck concentricity during the expanding operation.
 - Monitor the reloading process closely, ensuring all operations are performed safely and correctly.
 - After reloading, inspect each round for quality and safety before use.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Check for specific disposal instructions from local authorities regarding hazardous materials.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Forster Full Length Sizing Die, please refer to the manufacturer's contact information, which can be found on their official website or product packaging.

By following these guidelines, you can ensure a safe reloading experience with your Forster Full Length Sizing Die. Thank you for prioritizing safety in your reloading practices.
