

# 28 BEAD BLASTED MUZZLE BRAKE FOR RUGER 10/22 - KIDD INNOVATIVE DESIGN MUZZLE BRAKE .920" FOR RUGER 10/22 LR STAINLESS STEEL

[Rifle Parts](#) > [Muzzle Devices](#) > [Compensators & Muzzle Brakes](#)

The Kidd .22 muzzle brake can be used on any .22 caliber rifle or pistol with 1/2"-28 threads. The purpose of a muzzle brake is to reduce the felt recoil of the rifle. A .22 caliber shot doesn't generate a great deal of recoil for the shooter, but this item will still decrease it slightly. It also adds more weight to the muzzle end and looks great! Educational note: a flash suppressor is intended to hide the flash from the target and a compensator or muzzle brake is meant to direct the gases to reduce the upward climb of the firearm.

FEATURES: .22 caliber muzzle brake 1/2" -28 thread Silver .920"" Stainless Steel 2" length Packaging includes: muzzle brake

# Safety Instruction Guide for the 28 Bead Blasted Muzzle Brake for Ruger 10/22

## Introduction

Thank you for choosing the 28 Bead Blasted Muzzle Brake for your Ruger 10/22. This product is designed to enhance your shooting experience by reducing recoil and improving stability. To ensure your safety and the proper use of this product, please read this guide carefully.

## General Safety Guidelines

- Ensure that the muzzle brake is compatible with your firearm before installation.
- Always follow the manufacturer's instructions for use.
- Store the muzzle brake in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the muzzle brake for any signs of damage or wear.
- Do not use the muzzle brake if it is damaged or if you suspect it may be unsafe.
- Follow all local laws and regulations regarding firearm accessories.

## Specific Safety Precautions for Use

- Only use the muzzle brake on firearms that are chambered for .22 caliber and have 1/2"28 threads.
- Always wear appropriate eye and ear protection when shooting.
- Ensure that the firearm is pointed in a safe direction at all times.
- Be aware of your surroundings and ensure that the area is clear of people and obstacles before firing.
- Do not modify the muzzle brake or attempt to disassemble it.
- If you experience excessive recoil or any unusual behavior while using the muzzle brake, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Installation

- Ensure that your firearm is unloaded and pointed in a safe direction.
- Clean the threads on the muzzle of your firearm to remove any debris or obstruction.
- Align the muzzle brake with the threads on the muzzle of your firearm.
- Carefully screw the muzzle brake onto the threads, turning it clockwise until it is securely fastened. Do not overtighten.
- Check that the muzzle brake is firmly in place before using the firearm.

### 2. Usage

- After installation, follow the general safety guidelines and specific safety precautions outlined above.
- Test the muzzle brake at a safe shooting range, observing how it affects recoil and muzzle rise.
- If you notice any issues during use, such as excessive noise or instability, stop using the muzzle brake immediately.

## Disposal Instructions

- When disposing of the muzzle brake, follow local regulations regarding the disposal of metal products.
- If the muzzle brake is damaged beyond use, consider recycling it if possible.
- Do not dispose of the muzzle brake in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the muzzle brake, please consult the manufacturer or a qualified firearms expert. Always prioritize safety and responsible usage of firearm accessories.

Thank you for your attention to these safety guidelines, and enjoy your shooting experience!
