Designed with precision and functionality at its core, the Springfield Armory Hellcat Takedown Lever manufactured by Tyrant CNC is an engineering marvel crafted for enthusiasts who demand the best in their firearms. Their takedown lever is purpose-built to enhance the user's experience with the Springfield Hellcat and Hellcat Pro handguns. So, whether you're an operator in the field or a firearm enthusiast, this is the upgrade you've been waiting for.

Material & Manufacture: At Tyrant CNC, Tyrant Designs understand the importance of durability and performance. That's why this takedown lever is molded from 17-4 stainless steel, known for its strength and corrosion resistance. Once formed, each piece undergoes a bead-blasting process, giving it a uniform and aesthetically pleasing matte finish. But they didn't stop there. The lever then receives a PVD (Physical Vapor Deposition) finish, further enhancing its durability and resistance to wear, corrosion, and oxidation. The result? A takedown lever that's not just tough but is built to last a lifetime.

Design & Functionality: One of the standout features of this lever is its 2x raised surface, complemented by meticulously crafted serrations that pay homage to the OEM. These design elements don't just add to its visual appeal but play a crucial role in functionality. The increased surface area coupled with the texture provides a superior grip, whether its for a thumb rest or ensuring that the operator can swiftly and safely engage or disengage the lever, even under challenging conditions. This is a significant improvement over the factory model, which may sometimes feel slippery or inadequate. Additionally, their engineers have introduced subtle yet impactful radius changes to the design. These modifications ensure smoother operation, making the takedown process seamless and efficient. If you've ever felt the factory Hellcat & Hellcat Pro takedown lever was a bit stiff or abrasive, you'll immediately notice the difference with the Tyrant CNC's version.

Holster Compatibility: For operators and enthusiasts, the compatibility of aftermarket parts with existing equipment is often a concern. Tyrant Design have taken this into consideration. Despite its dimensional growth, enhanced features and superior design, this takedown lever remains fully compatible with standard holsters. This means you won't have to invest in new equipment or compromise on your carry options.

Conclusion: The Springfield Armory Hellcat and Hellcat Pro Takedown Lever by Tyrant CNC isn't just another aftermarket part; it's a testament to what's possible when engineering meets operational expertise. If you own a Springfield Hellcat or Hellcat Pro and are looking to elevate your firearm's performance, look no further. With its unparalleled durability, enhanced functionality, and seamless compatibility, it's the perfect upgrade for the discerning operator.

FEATURES Platform: Springfield Designed For Models: Hellcat, Hellcat Pro Fitment Notes: Works on all Springfield Armory Hellcat series firearms (regular, Pro, RDP, etc etc) Works with most OWB and IWB Holsters Polished radius groove for smoother action Larger surface area for easier manipulation Vertical Serrations Component: Takedown Lever

Safety Instruction Guide for TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO TYRANT CNC

Introduction

Thank you for choosing the TAKE DOWN LEVER FOR SPRINGFIELD® HELLCAT/HELLCAT PRO manufactured by Tyrant CNC. This product is designed to enhance the functionality and experience of your Springfield Hellcat and Hellcat Pro handguns. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the takedown lever by following all guidelines provided in this manual.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices regarding this product. Regularly check for updates.
- **Online Shopping Protections:** If purchased online, ensure that the seller complies with EU safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of their reach.
- **Rapid Alerts:** Be aware of the EU Safety Gate system for updates on unsafe products.

Specific Safety Precautions for Use

- **Read the Manual:** Always read the user manual of your firearm before installing or using the takedown lever.
- **Inspect the Product:** Before use, inspect the takedown lever for any signs of damage or wear. Do not use if damaged.
- **Proper Handling:** Always handle firearms with care. Ensure the firearm is unloaded before installing or removing the takedown lever.
- **Use in Safe Environment:** Only use the takedown lever in a controlled and safe environment, free from distractions.
- **Follow Manufacturer Instructions:** Adhere to the installation and usage instructions provided by Tyrant CNC and Springfield Armory.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Remove the factory takedown lever by following the instructions in your firearm's user manual.
- Align the Tyrant CNC takedown lever with the mounting area of your firearm.
- Firmly press the lever into place until it is secured. Ensure it is properly seated.
- Test the lever's functionality to ensure it operates smoothly.

2. Usage:

- To engage or disengage the takedown lever, ensure a firm grip is maintained.
- Use the raised surface and serrations for better grip, especially in adverse conditions.
- Always verify that the firearm is unloaded before attempting to disassemble or clean.

Disposal Instructions

- **Environmental Considerations:** Dispose of the product in accordance with local regulations. Do not dispose of in regular household waste.
- **Recycling:** If possible, recycle the takedown lever according to local recycling guidelines.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product performance, please refer to the official Tyrant CNC website or contact your local authorized dealer.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and enjoyable experience with your new takedown lever.
