Whether you are a pro, a novice just starting to work on firearms, or somewhere in between, you will need a wide range of quality tools. The Ultimate Gunsmithing Kit combines in one package all the necessary tools needed to make your job easier. This kit contains carefully selected tools that will cover a broad range of gunsmithing needs and are a must for top quality work.

FEATURES:

- Essential Gun Maintenance Mat** - The cushioned surface protects firearm finishes during disassembly or assembly and provides handy storage compartment for small screws, pins, and springs. The mat is chemical resistant and easy to clean.
- Deluxe Hammer & Punch Set** - Provides all the correctly sized punches needed for your gunsmith projects as well as the versatile Brass Tapper Hammer. The Brass Tapper Hammer comes with brass, nylon, and steel heads so you can select the proper one for the job at hand.
- Roll Pin Punch Set** - Features a rounded tip to center the punch on the end of a roll pin making them easy to remove with no slippage or damage.
- 68 Piece Gunsmith Tool Kit** - A good screwdriver set is one of the most used tools on a gunsmith's bench and this set has all of the properly fitting interchangeable bits you will need. The set includes 32 hollow ground bits for slotted screws, 17 hex bits in standard and metric sizes, 6 Phillips bits, 4 6-lobe bits, 6 specialty bits, 1 handle, 1 extension, and 1 ratchet wrench.
- Electronic Digital Trigger Pull Gauge** - Features strain gauge technology capable of accuracy of 1/10 ounces with a 12-pound capacity. The gauge is equipped with a large, easy to read LCD display and a roller that self-centers on the trigger.
- Pro Drive Torque Wrench** - A must for safely and professionally installing scope bases, scope rings, and action screws. The Pro Drive Torque can be adjusted to read up to 80 in-lbs. of torque. It comes in a padded storage case and includes straight blade, hex, and 6-lobe bits as well as a 1/2" socket and socket adapter.
- Universal Bore Guide** - Precision machined from durable, anodized aluminum, the set feature interchangeable tips that work in centerfire bolt action rifles from 17 to 416 caliber. The set also includes an adapter for use in Modern Sporting Rifles (MSR's). The guide has a specially machined port to allow solvent or oil to be neatly applied to patches. Works with most cleaning rods.
- Pick and Brush Set** - The variety of picks allows you to get into all of those hard-to-reach areas, whether it is to scrape away carbon build-up or moving small parts. Also includes nylon and bronze brushes for scrubbing away touch residue.
