Innovative weight reduction. Premium Materials. No compromises. All material pre-hardened prior to machining to prevent changing tolerances during heat treat. Bolt machined from one piece of pre-hardened 4340 chrome moly in one operation enabling guaranteed headspace +/- .001?. Receiver machined from one piece of pre-hardened 416SS. Wire EDM-cut, full-length lug ways with anti-bind result in smooth bolt operation. Primary extraction design significantly increases initial extraction and ensures smooth bolt cycling.
