

EXTENDED SLIDE CATCH LEVER FOR SIG SAUER® P365 - TYRANT CNC EXTENDED SLIDE CATCH LEVER FOR SIG SAUER P365 BLACK

[Handgun Parts](#) > [Frame Parts](#) > [Slide Catch Parts](#) > [Slide Catches](#)

Introducing the first-ever Sig Sauer 365 Extended Slide Catch to be CNC Machined! Made from stainless steel and finished in PVD their drop-in replacement Sig Sauer slide catch lever is the perfect upgrade for your pistol. Having issues returning your slide forward when loaded OR even when no magazine is present? Tyrant has made slight geometry changes that now allow the slide catch to also function as a slide release (no slide release function on empty magazines). This means no more needing to use both thumbs and no more needing to manipulate the slide by hand in order to return to battery! Their Sig Sauer 365 extended slide catch/release adds surface area and a raised texture that greatly improves usability for all! It is the perfect upgrade for conceal carry AND competition. Never again will your thumb slip while manipulating your Sig Sauer slide release! What is it? This drop-in replacement Sig Sauer P365 extended slide catch/release lever has a surface area extended over the OEM size. Why use it? One of the main flaws of the Sig Sauer Factory release lever is that it is extremely difficult to manipulate with one thumb/hand. This results in the operator occasionally slipping when attempting to manipulate the lever, or simply failing to put the firearm into battery. Their Sig P365 slide catch/release lever offers an extended AND raised surface area to ensure easy manipulation of the Sig Sauer slide. It is easy to install, functions great, and looks fantastic! Fits all post 2019 P365 variants Platform: Sig-Sauer Designed For Models; P365 Fitment Notes Uses existing OEM spring All post 2019 Sig Sauer P365 platform variants (May not be compatible 2019 and earlier FCU's) Works on new 365 Macro Fits on California compliant versions Component: Extended Slide Release

Consumer Safety Instruction Guide for the Extended Slide Catch Lever for Sig Sauer® P365

Introduction

Thank you for choosing the Extended Slide Catch Lever for your Sig Sauer® P365. This product is designed to enhance the functionality of your firearm, providing improved usability for both conceal carry and competition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your Sig Sauer® P365 before installing the Extended Slide Catch Lever.
- Always treat your firearm as if it is loaded, even when you believe it is not.
- Keep the firearm pointed in a safe direction at all times.
- Store the product and your firearm in a secure location, away from children and unauthorized users.
- Regularly check for product recalls and safety notices via the EU Safety Gate platform.
- In case of any accidents or unsafe product incidents, report them to the relevant authorities.

Specific Safety Precautions for Use

- Only use the Extended Slide Catch Lever with post2019 Sig Sauer® P365 models.
- Do not attempt to install the product on earlier model variants unless specified.
- Always ensure that the firearm is unloaded before installation or maintenance.
- Be cautious when handling the firearm, especially during installation, to avoid accidental discharge.
- Do not force the slide catch lever if it does not fit properly; seek professional assistance if needed.
- Be aware that the slide catch lever does not function as a slide release on empty magazines.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools (if any) for installation.

2. Installation Steps

- Remove the existing OEM slide catch lever from the firearm using appropriate tools.
- Align the Extended Slide Catch Lever with the installation point.
- Carefully insert the lever, ensuring that it fits snugly without excessive force.
- Reinstall any components that were removed during the process.

3. Usage

- To operate the slide catch, place your thumb on the extended surface area.
- Firmly press the lever to engage the slide catch/release function.
- Practice using the lever to become accustomed to its operation.

4. PostInstallation Check

- After installation, check the functionality of the slide catch lever.
- Ensure that the lever is secure and operates smoothly without obstruction.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If you need to dispose of the Extended Slide Catch Lever, follow local electronic waste disposal guidelines, as it may contain materials that require special handling.

Contact Information for Further Support

For any questions or concerns regarding the Extended Slide Catch Lever for Sig Sauer® P365, please refer to the manufacturer's website or customer support resources for assistance.

By following these guidelines, you will ensure a safer experience while using your Extended Slide Catch Lever. Always prioritize safety and responsible handling of your firearm. Thank you for your attention to these important instructions.
