

POWER GRIP SHELL HOLDER STEEL

POWER GRIP SHELL HOLDER Provides a comfortable grip for holding cases during case trimming and chamfering sessions. Installs into all popular priming tools that accept priming tool shell holders including their Lee Auto Prime and Auto Bench Prime, and others: K&M, Sinclair, FA Platinum or Perfect Seat, CPS, or 21st Century. This adapter holds your brass while trimming to the appropriate length or chamfering the inside and outside of the case neck. Allows you to rapidly change between pieces of brass without having to loosen up a knurled shell holder every time. Use in conjunction with your case length gauge and knurled shell holder, cutter with lock stud and chamfer tool.

POWER GRIP SHELL HOLDER Safety Instruction Guide

Introduction

Thank you for choosing the POWER GRIP SHELL HOLDER. This product is designed to provide a secure and comfortable grip for holding cases during trimming and chamfering sessions. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always read and follow the manufacturer's instructions.
- Ensure the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the POWER GRIP SHELL HOLDER only with compatible priming tools.
- Avoid using the product if it shows signs of damage.
- Do not force the shell holder into incompatible priming tools.
- Ensure that the case is securely held before starting any trimming or chamfering operations.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses when using cutting tools.
- Keep hands and other body parts clear of the cutting area during operation.

Instructions for Installation and Usage

1. Installation

- Ensure that your priming tool is compatible with the POWER GRIP SHELL HOLDER.
- Insert the shell holder into the priming tool until it is securely seated.
- Verify that the shell holder is locked in place before use.

2. Usage

- Place the brass case into the POWER GRIP SHELL HOLDER.
- Ensure that the case is held securely by the shell holder.
- Use a case length gauge to measure the length of the brass.
- When trimming, use a cutter with a lock stud to ensure stability.
- For chamfering, use the appropriate chamfer tool on both the inside and outside of the case neck.
- To change between pieces of brass, simply release the grip of the shell holder without loosening the knurled shell holder.

Disposal Instructions

- Dispose of the POWER GRIP SHELL HOLDER in accordance with local regulations.
- Do not dispose of the product in household waste.
- Check with local recycling centers for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for your attention to these safety instructions. Your safety is our priority. Enjoy using your POWER GRIP SHELL HOLDER!
