

# POWER GRIP SHELL HOLDER - LEE PRECISION POWER GRIP SHELL HOLDER STEEL

[Reloading](#) > [Shellholders & Shellplates](#)

POWER GRIP SHELL HOLDER Provides a comfortable grip for holding cases during case trimming and chamfering sessions. Installs into all popular priming tools that accept priming tool shell holders including their Lee Auto Prime and Auto Bench Prime, and others: K&M, Sinclair, FA Platinum or Perfect Seat, CPS, or 21st Century. This adapter holds your brass while trimming to the appropriate length or chamfering the inside and outside of the case neck. Allows you to rapidly change between pieces of brass without having to loosen up a knurled shell holder every time. Use in conjunction with your case length gauge and knurled shell holder, cutter with lock stud and chamfer tool.

# POWER GRIP SHELL HOLDER SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the POWER GRIP SHELL HOLDER by Lee Precision. This product is designed to provide a comfortable grip for holding cases during case trimming and chamfering sessions. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always use the POWER GRIP SHELL HOLDER according to the manufacturer's instructions.
- Ensure that the shell holder is securely attached to the priming tool before use.
- Keep the work area clean and organized to prevent accidents.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when operating tools.
- Store the shell holder in a safe place away from children and pets.
- Regularly inspect the shell holder for any signs of wear or damage. Do not use if damaged.

## Specific Safety Precautions for Use

- Use only with compatible priming tools, including Lee Auto Prime and Auto Bench Prime, as well as other specified brands (K&M, Sinclair, FA Platinum or Perfect Seat, CPS, or 21st Century).
- Avoid excessive force when trimming or chamfering cases to prevent injury.
- Do not attempt to modify the shell holder in any way, as this may compromise safety.
- Always keep hands and fingers clear of moving parts during operation.
- Ensure that the brass is properly secured in the shell holder before starting any trimming or chamfering operations.
- If you experience any difficulty or resistance when using the shell holder, stop immediately and check for obstructions.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that your priming tool is turned off and unplugged (if applicable).
- Locate the shell holder slot on your priming tool.
- Insert the POWER GRIP SHELL HOLDER into the shell holder slot until it clicks into place.
- Verify that the shell holder is securely attached by gently tugging on it.

### 2. Usage:

- Select the brass case you wish to trim or chamfer.
- Place the brass case into the POWER GRIP SHELL HOLDER, ensuring it is seated properly.
- Adjust your case length gauge and knurled shell holder, cutter with lock stud, and chamfer tool as needed.
- Proceed with trimming or chamfering, using steady and controlled motions.
- When finished, carefully remove the brass case from the shell holder.

## Disposal Instructions

- Dispose of the POWER GRIP SHELL HOLDER in accordance with local regulations.
- If the product is damaged or no longer usable, consider recycling it if possible.
- Do not dispose of the shell holder in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the POWER GRIP SHELL HOLDER, please refer to the manufacturer's website or contact your local retailer for assistance.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience while using the POWER GRIP SHELL HOLDER. Always prioritize safety and do not hesitate to seek help if needed. Thank you for your commitment to safe practices.
