

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 284 WIN RIFLE PRECISION MICROMETER BULLET SEAT DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed to enhance your reloading experience with precision and accuracy. However, it is essential to use this product safely and responsibly. This guide provides important safety instructions and guidelines to ensure your safety and the proper use of the product.

General Safety Guidelines

- Follow all instructions carefully to ensure safe handling and operation of the bullet seating die.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using this product.
- Keep the product out of reach of children and unauthorized users. This product is not intended for use by individuals under the age of 18.
- Ensure that your workspace is clean, organized, and free from distractions while using this product.
- Do not modify or alter the product in any way, as this may compromise safety and performance.
- Be aware of your surroundings and ensure that no one is in close proximity when operating the die.

Specific Safety Precautions for Use

- Before using the bullet seating die, inspect it for any damage or wear. Do not use if any parts are damaged.
- Ensure that the die is compatible with the cartridges you are using (for example, .284 Winchester).
- Always use the die in a well-ventilated area to avoid inhaling any dust or particles generated during the reloading process.
- Use only the recommended bullet styles as specified by the manufacturer to avoid potential hazards.
- Keep your hands and other body parts clear of the die's moving parts during operation.
- Be cautious when adjusting the micrometer thimble to avoid pinching fingers or causing injury.
- Ensure that the bullet guide is properly aligned before use to prevent misfires or accidents.

Instructions for Installation and Usage

1. Installation:

- Securely mount the bullet seating die in your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during operation.

2. Usage:

- Adjust the micrometer thimble to the desired bullet seating depth. The markings on the thimble represent one thousandth of an inch for precision.
- Place the cartridge case into the shell holder and ensure it is seated correctly.
- Insert the bullet into the case mouth and align it with the floating bullet guide.
- Gently lower the bullet seating stem until it contacts the bullet, ensuring that the bullet guide is aligned.
- Apply steady pressure to the handle of the reloading press to seat the bullet to the desired depth.
- After seating, check the cartridge for proper seating depth and alignment.
- If crimping is required, follow the manufacturer's instructions for the crimping process.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw the product in regular household waste. Check with local authorities for proper disposal methods for reloading components and materials.
- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For any inquiries related to safety, usage, or support, please consult the manufacturer's official website or customer service resources. It is important to have access to accurate and up-to-date information regarding your product.

Conclusion

Your safety is our priority. By following these guidelines and instructions, you can ensure a safe and effective experience with the RIFLE PRECISION MICROMETER BULLET SEATING DIES. Remember to stay informed about product recalls and safety updates through the EU's Safety Gate platform. Thank you for your attention to safety, and happy reloading!
