

BILLET ALUMINUM RELOADING TRAYS - L.E. WILSON, INC. .440" HEAD RELOADING TRAY BILLET ALUMINUM

L.E. WILSON, INC. BILLET ALUMINUM RELOADING TRAYS The L.E. Wilson Billet Aluminum Reloading Trays are precision-machined in-house from a solid block of billet aluminum for unmatched strength and durability. Built to last for many years of use, each tray features a clear anodized finish for corrosion resistance and a sleek, professional look. Compact and stackable, these trays make brass handling efficient at home, the range, or on the road. Proudly made in the USA, every tray is engraved with the WILSON logo on each end, a mark of superior craftsmanship. FEATURES Unique 55-hole design—set aside rounds for inspection, run 50 rounds per tray with added space for powder dispensing, or process brass efficiently. Cartridge compatibility—works with cases using a .473" head diameter, including: 22-250 Rem, 220 Swift, 6-250, 243 Win, 6 mm Rem, 6 mm Creedmoor, 240 Weatherby, 25-06 Rem, 250 Sav, 260 Rem, 6.5 mm Creedmoor, 6.5x55 mm, 270 Win, 7x57 mm, 7-08 Rem, 280 Rem, 308 Win, 30-06 Sprg, 8x57 mm, 35 Whelen, 35 Rem, and many more. Low-profile design—precisely spaced holes make it easier to grip and handle each case. Stackable and lightweight—perfect for storage or transport to the range. Multiple size options—available in different tray sizes to fit your reloading needs. WHY CHOOSE BILLET ALUMINUM? Unlike plastic trays, billet aluminum provides superior stability, heat resistance, and longevity. These trays won't warp, crack, or degrade, making them the premium choice for reloaders who demand consistency and reliability. Whether you're sorting, processing, or separating brass, Wilson Reloading Trays deliver efficient, professional-grade performance.

Safety Instruction Guide for BILLET ALUMINUM RELOADING TRAYS

Introduction

Thank you for choosing the BILLET ALUMINUM RELOADING TRAYS by L.E. Wilson, Inc. This guide provides essential safety information and instructions for the proper use of your reloading trays. Please read this guide thoroughly to ensure safe and effective use.

General Safety Guidelines

- **Product Safety:** Ensure safe usage of the reloading trays by following all instructions and safety precautions.
- **Enhanced Recalls:** Stay informed about any recalls by checking official sources. If a recall is issued, follow the provided instructions for return or remedy.
- **Online Shopping:** If purchased online, verify that the seller complies with safety regulations.
- **Special Consumer Focus:** Keep reloading trays out of reach of children and vulnerable individuals.
- **EU Contact Point:** For safety inquiries, contact the designated EU-based representative of L.E. Wilson, Inc.
- **Rapid Alerts:** Monitor the EU's Safety Gate platform for updates on product safety.

Specific Safety Precautions for Use

- **Avoid Overloading:** Do not exceed the recommended capacity of the trays to prevent damage and ensure stability.
- **Inspect Before Use:** Check the trays for any signs of damage or wear before each use. Do not use damaged trays.
- **Keep Away from Heat Sources:** Avoid exposing the trays to high temperatures, as this may affect their integrity.
- **Use Proper Handling Techniques:** Always handle the trays with care to prevent dropping or mishandling.
- **Store Safely:** When not in use, store the trays in a dry, cool place away from direct sunlight and moisture.

Instructions for Installation and Usage

1. **Preparation:** Ensure your workspace is clean and free from clutter before using the reloading trays.
2. **Loading the Tray:**
 - Place the tray on a flat, stable surface.
 - Load the rounds into the designated holes, ensuring they are seated properly.
 - For inspection or sorting, utilize the unique 55hole design to separate rounds as needed.
3. **Using the Tray:**
 - When handling the tray, grip it securely by the edges.
 - Avoid sudden movements that could cause the tray to tip or spill its contents.
4. **Transporting the Tray:**
 - If transporting, ensure the tray is secured to prevent movement during transit.
 - Consider using a padded case for added protection.
5. **Cleaning:**
 - Clean the trays with a soft cloth and mild soap if necessary.
 - Avoid abrasive cleaners or scrubbing pads that could scratch the surface.

Disposal Instructions

- **Recycling:** The BILLET ALUMINUM RELOADING TRAYS are made of aluminum, which is recyclable. Check local recycling guidelines for proper disposal methods.
- **NonRecyclable Components:** If any nonrecyclable components are present, dispose of them according to local waste management regulations.

Contact Information for Further Support
