

BILLET ALUMINUM RELOADING TRAYS - L.E. WILSON, INC. .533" HEAD RELOADING TRAY BILLET ALUMINUM

L.E. WILSON, INC. BILLET ALUMINUM RELOADING TRAYS The L.E. Wilson Billet Aluminum Reloading Trays are precision-machined in-house from a solid block of billet aluminum for unmatched strength and durability. Built to last for many years of use, each tray features a clear anodized finish for corrosion resistance and a sleek, professional look. Compact and stackable, these trays make brass handling efficient at home, the range, or on the road. Proudly made in the USA, every tray is engraved with the WILSON logo on each end, a mark of superior craftsmanship. FEATURES Unique 55-hole design—set aside rounds for inspection, run 50 rounds per tray with added space for powder dispensing, or process brass efficiently. Cartridge compatibility—works with cases using a .473" head diameter, including: 22-250 Rem, 220 Swift, 6-250, 243 Win, 6 mm Rem, 6 mm Creedmoor, 240 Weatherby, 25-06 Rem, 250 Sav, 260 Rem, 6.5 mm Creedmoor, 6.5x55 mm, 270 Win, 7x57 mm, 7-08 Rem, 280 Rem, 308 Win, 30-06 Sprg, 8x57 mm, 35 Whelen, 35 Rem, and many more. Low-profile design—precisely spaced holes make it easier to grip and handle each case. Stackable and lightweight—perfect for storage or transport to the range. Multiple size options—available in different tray sizes to fit your reloading needs. WHY CHOOSE BILLET ALUMINUM? Unlike plastic trays, billet aluminum provides superior stability, heat resistance, and longevity. These trays won't warp, crack, or degrade, making them the premium choice for reloaders who demand consistency and reliability. Whether you're sorting, processing, or separating brass, Wilson Reloading Trays deliver efficient, professional-grade performance.

Safety Instruction Guide for BILLET ALUMINUM RELOADING TRAYS

Introduction

Thank you for choosing the BILLET ALUMINUM RELOADING TRAYS by L.E. WILSON, INC. This guide provides important safety information and instructions to ensure the safe and effective use of the product. Please read this document carefully before using the reloading trays.

General Safety Guidelines

- Ensure that the reloading trays are used only for their intended purpose, which is to handle and organize ammunition components.
- Always use the trays in a wellventilated area, especially when handling powders or other materials that may produce fumes.
- Keep the trays out of reach of children and pets to prevent accidents.
- Regularly inspect the trays for any signs of damage or wear. Do not use damaged trays.
- Report any unsafe products or incidents to the appropriate authorities and check for recall updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Handling:**
 - Always handle the trays with clean hands to avoid contamination of the ammunition components.
 - Avoid dropping or striking the trays as this may cause damage.
- **Storage:**
 - Store the trays in a cool, dry place away from direct sunlight to maintain their integrity.
 - Ensure that the trays are stacked properly to prevent tipping or falling.
- **Compatibility:**
 - Use only with cartridges that have a .473" head diameter. Refer to the compatibility list for specific cartridge types.
- **Inspection:**
 - Before each use, inspect the trays for any sharp edges or defects that may pose a risk.
- **Environmental Considerations:**
 - Dispose of any materials used in conjunction with the trays according to local regulations to minimize environmental impact.

Instructions for Installation and Usage

- **Setup:**
 - Remove the trays from the packaging and place them on a stable, flat surface.
 - Ensure that the trays are clean and free from any foreign materials before use.

- **Loading Ammunition:**

- Place the ammunition components into the designated holes of the tray.
- Ensure that each component is seated properly and securely within its respective hole.

- **Processing Brass:**

- Use the trays to sort, inspect, or process brass efficiently.
- Utilize the unique 55hole design to set aside rounds for inspection or to run 50 rounds per tray.

- **Transporting:**

- When transporting the trays, stack them securely and avoid placing heavy objects on top to prevent deformation.

- **Cleaning:**

- Clean the trays with a soft cloth and mild detergent as needed. Avoid using abrasive materials that may scratch the surface.

Disposal Instructions

- Dispose of the trays in accordance with local waste management regulations.
- If the trays are no longer usable, consider recycling the aluminum material to reduce environmental impact.

Contact Information for Further Support

For any inquiries regarding the safety and use of the BILLET ALUMINUM RELOADING TRAYS, please refer to the contact information provided with your product packaging. Ensure that you have the product information ready for a more efficient response.

Thank you for your attention to these safety guidelines. Enjoy your reloading experience with confidence and care!
