Safety Instruction Guide for BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS

Introduction

Thank you for choosing the BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS by LYMAN. This product is designed to provide a smooth and efficient trimming experience for your brass cases. To ensure safe and effective use, please read this safety instruction guide carefully before operating the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the product.
- Inspect the product for any damage or wear before each use. Do not use if damaged.
- Follow all instructions provided in this guide to avoid potential hazards.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **SpringLoaded Mechanism:** Be cautious when handling the bushings, as the springloaded mechanism can cause sudden movement. Ensure your hands are clear when the cutter engages.
- **Cutting Tool Safety:** The carbide cutter is sharp. Avoid direct contact with the cutter to prevent cuts or injuries.
- **Stable Surface:** Use the product on a stable, flat surface to prevent slipping or tipping during operation.
- **Proper Handling:** Always handle the bushings and the case with care to avoid accidental injury.
- **Avoid Distractions:** Concentrate fully on the task at hand. Avoid using the product when tired or distracted.

Instructions for Installation and Usage

1. Installation:

- Ensure the Case Trim Xpress system is properly assembled according to the manufacturer's instructions.
- Insert the bushing securely into the designated slot on the Case Trim Xpress.
- Confirm that the bushing is locked in place before proceeding.

2. Using the Product:

- Place the brass case against the carbide cutter.
- Apply steady pressure to push the case against the cutter. The springloaded bushing will support the case during trimming.
- Once the trimming is complete, remove the trimmed case carefully.
- Inspect the trimmed case for any burrs or sharp edges and smooth them if necessary.

3. PostUse Care:

- Clean the bushing and cutter after each use to maintain optimal performance.
- Store the product in a dry place away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- If the product is no longer usable, contact local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding safety, usage, or product performance, please reach out to the designated EUbased contact point provided with your purchase.

Conclusion

Your safety is our priority. By following these guidelines and precautions, you can ensure a safe and efficient experience with the BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS. Thank you for your attention to these important safety instructions.
