# Safety Instruction Guide for BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS

## Introduction

Thank you for choosing the BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS, specifically the LYMAN #5 TRIM XPRESS BUSHING for 22 Nosler. This product is designed to facilitate the trimming of brass cases with ease and precision. To ensure your safety and the safe use of this product, please read and follow the guidelines outlined in this document.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions to prevent accidents.
- Always inspect the bushings and the Case Trim Xpress system for any signs of damage before use.
- Keep the work area clean and welllit to minimize the risk of accidents.
- Store the product in a dry and secure location, away from children and unauthorized users.
- Be aware of the potential hazards associated with handling brass cases and cutting tools.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using this product.
- Do not attempt to modify or alter the bushings or the cutting mechanism.
- Ensure that the bushing is securely attached to the Case Trim Xpress before use.
- Avoid wearing loose clothing or jewelry that could become caught in the machinery.
- Keep hands and other body parts clear of the cutting area during operation.
- Do not exceed the recommended usage limits for the bushings and the Case Trim Xpress system.

## Instructions for Installation and Usage

### 1. Installation of Bushing:

- Select the appropriate bushing for your cartridge (3030 Winchester, 6.8 mm Remington SPC, 22 Nosler, 224 Valkyrie, or 24 Nosler).
- Carefully insert the bushing into the Case Trim Xpress system, ensuring it is seated properly.
- Confirm that the bushing is securely locked in place before proceeding.

### 2. Using the Case Trim Xpress:

- Insert the brass case into the bushing, aligning it correctly with the carbide cutter.
- Apply gentle pressure to push the case against the cutter. The springloaded mechanism will assist in providing a smooth cut.
- After trimming, remove the case and inspect it for any burrs or imperfections.
- Clean the bushing and cutting area after each use to maintain optimal performance.

### 3. PostUse Care:

- Store the bushings in their designated case or storage area to prevent damage.
- Regularly check for wear and tear and replace any worn bushings immediately.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations for electronic and mechanical waste.
- Ensure that any brass cases are recycled appropriately, following local recycling guidelines.

## Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer's contact details provided with your product packaging or visit their official website.

By adhering to these safety instructions, you will ensure a safer and more effective experience with your BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS. Thank you for your attention to these important safety guidelines.
