# Safety Instruction Guide for BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS

## Introduction

Thank you for choosing the BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS, specifically designed for use with the LYMAN #7 TRIM XPRESS. This guide provides essential safety instructions to ensure safe and effective use of the product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that all safety precautions are followed to prevent accidents and injuries.
- Always use the product as intended and in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage. Do not use if damaged.
- Report any unsafe product experiences to the relevant authorities.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Sharp edges of the cutter may cause cuts or lacerations.
- Improper handling may lead to injury.
- Ensure that the workspace is clear of obstructions to avoid tripping hazards.

### • Avoiding Hazards:

- Always wear appropriate personal protective equipment (PPE), such as safety gloves and goggles, when using the product.
- Do not attempt to modify or alter the bushings or cutter.
- Ensure that the case is securely held in place before trimming.
- Never place hands near the cutter while in operation.

### • Age Restrictions:

- This product is not intended for use by individuals under the age of 18 without adult supervision.

## Instructions for Installation and Usage

### • Installation:

1. Ensure that the Case Trim Xpress system is powered off and unplugged before installation.
2. Select the appropriate bushing for your cartridge (e.g., 6.5 Grendel, 7.62 x 39 mm, 3040 Krag, 303 British).
3. Insert the bushing into the designated slot on the Case Trim Xpress system until it clicks into place.
4. Doublecheck that the bushing is securely fitted before use.

### • Usage:

1. Prepare the brass case by cleaning it and ensuring it is free of debris.
2. Place the brass case against the carbide cutter.
3. Apply gentle pressure to push the case against the cutter, allowing the springloaded bushing to assist in the trimming process.

4. Once the case is trimmed, remove it carefully and inspect the cut for quality.
5. Clean the workspace after use to maintain a safe environment.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management facilities for proper disposal methods for metal and plastic components.

## Contact Information for Further Support

For any questions or concerns regarding the use of this product, please contact the manufacturer or consult the retailer where the product was purchased. Ensure you have the product details and any relevant information ready for efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience with the BUSHINGS FOR BRASS SMITH CASE TRIM XPRESS. Thank you for prioritizing safety and compliance with EU regulations.
