

FLAT BULLET SEATING MICROMETER - REDDING #11 FLAT BULLET SEATING MICROMETER

[Reloading](#) > [Reloading Dies](#) > [Replacement Parts & Upgrades](#)

Redding Bullet Seating Micrometers are for use with most standard Redding Seating Dies and provide a direct replacement for the original seat plug. They provide a direct replacement for the original seat plugs and can easily be changed from one die to another. Redding Bullet Seating Micrometers for bottleneck cartridges are available for traditional bullet shapes (STD) and for VLD bullet shapes (VLD). They are also available for handgun and straight wall cartridges with traditional bullet shapes (STD) and flat nose bullet designs (FLAT).

Safety Instruction Guide for Redding Flat Bullet Seating Micrometer

Introduction

Thank you for choosing the Redding Flat Bullet Seating Micrometer. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read and understand these instructions before using the micrometer.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the Redding Flat Bullet Seating Micrometer by following all instructions carefully.
- **Enhanced Recalls:** Stay informed about product recalls and safety notices. Follow any instructions provided in the event of a recall.
- **Online Shopping:** When purchasing online, ensure the seller complies with safety standards.
- **Special Consumer Focus:** Extra care should be taken when the product is used by individuals who may be vulnerable, including children.
- **EU Contact Point:** For safety inquiries, refer to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Keep up to date on product safety information through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the micrometer as intended and according to the manufacturer's instructions.
- Do not modify the micrometer in any way that could compromise its safety or functionality.
- Keep the micrometer out of reach of children and unauthorized individuals.
- Inspect the micrometer before each use to ensure there are no visible defects or damage.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when using the micrometer.
- Be aware of your surroundings and ensure a safe workspace free from distractions.

Instructions for Installation and Usage

1. Installation:

- Ensure that your Redding Seating Die is clean and free from debris.
- Carefully remove the original seat plug from the die.
- Insert the Redding Flat Bullet Seating Micrometer into the die, ensuring it is securely fitted.
- Adjust the micrometer to the desired setting according to your specific bullet type.

2. Usage:

- Follow the specific instructions for your bullet type: traditional bullet shapes (STD) or VLD bullet shapes.
- For handgun and straight wall cartridges, ensure you are using the appropriate micrometer for flat nose bullet designs (FLAT).
- When adjusting the micrometer, ensure that you are making small, precise adjustments to avoid overtightening.
- After adjustments, doublecheck the settings before proceeding with reloading.

Disposal Instructions

- Dispose of the Redding Flat Bullet Seating Micrometer in accordance with local regulations.
- Do not dispose of the micrometer in regular household waste.
- If the micrometer is damaged or no longer usable, contact the manufacturer for guidance on proper disposal methods.

Contact Information for Further Support

For further support or inquiries regarding safety or product usage, please refer to the contact information provided by the manufacturer.

By following these guidelines, you help ensure your safety and the effective use of the Redding Flat Bullet Seating Micrometer. Thank you for your attention to these safety instructions.
