

# Delta Series Pic Rail Riser - Delta Series Pic Rail Riser .5"

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

Wheeler® understands the need for precision in today's world of advanced shooting systems. Calculating total optic height above a receiver rail is difficult due to varying specifications from a variety of ring manufacturers. The necessity to mount optics and accessories at a precise height above a Picatinny rail led us to the development of Multi-Height Pic Rails. Being able to select a riser that fits the particular application allows for the perfect co-witness alignment of a scope and forward mounted Night Vision Devise (NVD). Proper alignment of the scope with the NVD is critical in maintaining the same zero point with a day/night system.

# Wheeler Delta Series Pic Rail Riser Safety Instruction Guide

## Introduction

Thank you for choosing the Wheeler Delta Series Pic Rail Riser. This product is designed to enhance your shooting experience by allowing precise mounting of optics and accessories. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure the product is used for its intended purpose only.
- Always follow the manufacturer's instructions for installation and usage.
- Inspect the product before each use for any signs of damage or wear.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the Pic Rail Riser only with compatible optics and accessories.
- Ensure that the riser is securely mounted to the Picatinny rail before use.
- Avoid overtightening screws or bolts, which can lead to damage.
- Do not modify the product in any way, as this can compromise safety.
- Always check the alignment of your scope and Night Vision Device (NVD) after installation.
- Use protective eyewear when testing or using mounted optics.

## Instructions for Installation and Usage

### 1. Installation

- Begin by cleaning the Picatinny rail surface to ensure proper adhesion.
- Align the Wheeler Delta Series Pic Rail Riser with the desired mounting position on the rail.
- Use the provided screws to secure the riser in place. Do not overtighten.
- Confirm that the riser is level and securely fastened before proceeding.

### 2. Usage

- Once installed, mount your optic or accessory onto the riser.
- Adjust the height as necessary to achieve the desired cowitness alignment with your NVD.
- Regularly check the mounting screws for tightness before each use.
- Always ensure that your setup is stable before engaging in shooting activities.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Consider recycling options where available to minimize environmental impact.

## Contact Information for Further Support

For any questions regarding safety, usage, or installation of the Wheeler Delta Series Pic Rail Riser, please refer

to the manufacturer's website or customer support resources.

Stay safe and enjoy your shooting experience with the Wheeler Delta Series Pic Rail Riser!
