

Full Length Die 1 1/4 - Full Length Die 303 British

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 1 1/4 Full Length Die 303 British Safety Instructions

Introduction

Thank you for choosing the Full Length Die 1 1/4 Full Length Die 303 British. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before using the die to avoid any potential hazards.

General Safety Guidelines

- Ensure the die is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the die and working with cartridge cases.
- Keep the workspace clean and organized to prevent accidents.
- Do not use the die for any purpose other than intended.
- Store the die in a dry, secure location away from children and pets.
- Regularly inspect the die for any signs of wear or damage. Replace any worn components immediately.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Calibration Hazards:** Ensure the die is properly calibrated before use to avoid incorrect sizing of cartridge cases.
- **Expander and Ejector Pin:** Handle the removable expander and ejector pin with care. Ensure they are securely in place before operating the die.
- **Neck Tension:** Be cautious during the calibration process to achieve correct neck tension without damaging the cartridge case.
- **Lock Nut:** Ensure the die is securely set in the press using the lock nut to prevent movement during operation.
- **Replacement Parts:** Only use manufacturer-approved replacement parts for the die to maintain safety and performance.

Instructions for Installation and Usage

1. Setup:

- Ensure you have all necessary tools and components before starting.
- Securely mount the die in the press, ensuring it is aligned properly.
- Use the lock nut to secure the die in place.

2. Calibration:

- Insert the cartridge case into the die.
- Push the case into the die to calibrate the neck from the inside.
- Ensure the neck tension is appropriate before proceeding.

3. Using the Die:

- Follow the manufacturer's instructions for operating the press and using the die.
- Monitor the process closely to identify any issues early.

4. PostUse Care:

- After use, clean the die to remove any debris or residue.
- Store the die in a secure location.

Disposal Instructions

- Dispose of any damaged or worn parts according to local regulations.
- Do not dispose of the die in regular household waste. Check with local authorities for proper disposal methods for metal components.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 1 1/4 Full Length Die 303 British, please refer to the manufacturer's manual or contact the appropriate support channels for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Full Length Die 1 1/4 Full Length Die 303 British. Thank you for your attention to safety.
