

Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 8,5x63

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

BenchRest Neck Die Safety Instructions

Introduction

Thank you for choosing the BenchRest Neck Die 1 1/4 for your reloading needs. This product is designed for precision in seating match bullets and ensuring optimal bullet runout. It is important to follow these safety instructions to ensure safe operation and to maximize the performance of your BenchRest Neck Die.

General Safety Guidelines

- Always read and understand the user manual before using the product.
- Ensure that your workspace is clean, organized, and free from hazards.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling materials and tools.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities immediately.
- Regularly check for updates on product recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the BenchRest Neck Die is compatible with your specific reloading setup.
- Do not attempt to modify the die or use it for purposes other than intended.
- Always inspect the die for damage before use. Do not use if damaged.
- Follow the manufacturer's guidelines for the correct installation of the seaterhead.
- Ensure that the cartridge case is properly aligned before seating the bullet to avoid misfires or accidents.
- Be aware of the potential hazards of handling ammunition components and follow all safety protocols.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Remove the existing die from the press if applicable.
- Thread the BenchRest Neck Die into the press using the 1 1/4 inch thread.
- Tighten the die securely to prevent movement during operation.
- Select the appropriate seaterhead based on the bullet you are using and install it according to the manufacturer's instructions.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for any damage.
- Insert the cartridge case into the die and ensure it is properly seated.
- Slowly and steadily operate the press to seat the bullet, ensuring that the bullet is guided correctly by the die.
- Check the bullet seating depth and concentricity after every few rounds to ensure consistent results.
- Store the die in a safe, dry place when not in use.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste management regulations.
- If the product is no longer usable, follow local guidelines for the disposal of metal and plastic components.
- Do not dispose of ammunition components in regular household waste. Check local regulations for proper disposal.

disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the BenchRest Neck Die, please refer to the contact information provided in the product manual or visit the manufacturer's website for additional support resources.

By following these safety instructions, you can ensure safe and effective use of your BenchRest Neck Die. Thank you for your attention to these important safety guidelines.
