

# Bench-Rest Neck Die 1 1/4 - Bench-Rest Neck Die 375 Blaser Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRest Neck Die 1 1/4 BenchRest Neck Die 375 Blaser Mag Safety Instruction Guide

## Introduction

Thank you for purchasing the BenchRest Neck Die 1 1/4 for the 375 Blaser Mag. This product is designed to provide you with the highest precision in seating match bullets. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- If you encounter any issues or notice any potential hazards, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Before using the BenchRest Neck Die, ensure that you are familiar with reloading procedures and equipment.
- Wear appropriate safety gear, including safety glasses, to protect your eyes during use.
- Always work in a wellventilated area to avoid inhalation of any dust or particles generated during the reloading process.
- Do not exceed the recommended specifications for the cartridge case being used.
- Ensure that the die is securely mounted to prevent movement during operation.
- Handle all components, including bullets and cartridge cases, with care to avoid injury.
- Keep your workspace organized and free of clutter to prevent accidents.

## Instructions for Installation and Usage

### 1. Installation:

- Carefully read the product manual before starting the installation.
- Securely mount the BenchRest Neck Die to your reloading press according to the manufacturer's instructions.
- Ensure that the die is aligned properly to maintain accuracy during the seating operation.

### 2. Usage:

- Prepare your cartridge cases as per standard reloading procedures.
- Insert the cartridge case into the die and ensure it is seated correctly.
- Place the bullet into the case mouth and gently push it into the die.
- Apply consistent pressure to the seating handle to ensure proper bullet seating.
- Regularly check for bullet runout and concentricity to maintain precision.
- Replace the seaterhead if necessary, choosing the correct type for the bullet being used.

## Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, contact your local waste management

authority for proper disposal methods.

- Ensure that all hazardous materials are disposed of safely and responsibly.

## **Contact Information for Further Support**

For any questions or concerns regarding the BenchRest Neck Die, please refer to the product manual for assistance. If you require additional support, consult the manufacturer's website or contact their customer service for guidance.

Thank you for prioritizing safety while using the BenchRest Neck Die. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
