

Smith & Wesson 44 Mag Comet Brake Reduces Recoil - Smith and Wesson 1854 44 Mag Comet Muzzle Brake

[Rifle Parts](#) > [Muzzle Devices](#)

The Comet Brake Muzzle Brake is a sleek, precision-engineered muzzle brake that reduces recoil and muzzle flash by approximately 25%. Designed for the Smith and Wesson 1854 Series .44 Mag with an outside barrel diameter of 20.95 mm (0.825") and 11 x 16 tpi muzzle threading, this brake delivers optimal performance and enhanced accuracy.

Specifications:

Material: Durable, corrosion-resistant 4140 steel with black nitride finish

Overall Length: 42 mm (with 25.4 mm extending beyond the muzzle)

Installation Notes: Hand-tighten onto the threads using blue Loctite (do not use red Loctite; no torque specs required)

Compatibility: Fits only barrels with the specified thread pattern—verify threading with your gunsmith

The Comet Brake stands out with its long-lasting construction and targeted recoil reduction—perfect for hunters and sport shooters.

Smith & Wesson 44 Mag Comet Brake Safety Instructions

Introduction

Thank you for choosing the Smith & Wesson 44 Mag Comet Brake. This product is designed to enhance your shooting experience by reducing recoil and muzzle flash. Please read this safety instruction guide carefully to ensure safe and effective use of the Comet Brake.

General Safety Guidelines

- Follow all local laws and regulations regarding firearm accessories.
- Always treat your firearm as if it is loaded.
- Use only the recommended materials and tools for installation.
- Ensure that you are in a safe environment when using this product.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for wear and damage.
- Report any unsafe products or accidents to local authorities.

Specific Safety Precautions for Use

- Do not exceed the manufacturer's specifications for barrel diameter and threading.
- Ensure that the Comet Brake is properly installed before use.
- Avoid using red Loctite; use blue Loctite for installation.
- Do not attempt to modify the Comet Brake or your firearm.
- Be aware of your surroundings and ensure a clear shooting area.
- Wear appropriate eye and ear protection when using your firearm.

Instructions for Installation and Usage

1. Installation

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Clean the muzzle threads to remove any debris or old thread sealant.
- Apply blue Loctite to the threads of the muzzle.
- Handtighten the Comet Brake onto the muzzle threads.
- Ensure that the brake is securely fastened and aligned properly.

2. Usage

- Always check that the Comet Brake is properly installed before firing.
- Use the firearm in a safe and controlled environment.
- Monitor the performance of the Comet Brake during use; if you notice any issues, cease use immediately.

Disposal Instructions

- Dispose of the Comet Brake according to local regulations for metal products.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer needed, consult with a local waste disposal facility for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Smith & Wesson 44 Mag Comet Brake, please consult your local dealer or a qualified gunsmith. Ensure that you have the product details available for accurate assistance.

By following these safety instructions, you can enjoy the benefits of the Smith & Wesson 44 Mag Comet Brake while ensuring your safety and the safety of those around you. Thank you for your attention to these important guidelines.
